

**Class Deviation for Federal Acquisition Regulation Part 27 in accordance with Executive Order 14275, “Restoring Common Sense to the Federal Procurement”
(2026-0024)**

1. Purpose: To issue a class deviation to Federal Acquisition Regulation (FAR) Part 27 for purposes of implementing the FAR Council’s model deviation text to FAR Part 27.

2. Effective Date: Immediately.

3. Expiration Date: Expires when the FAR Council’s model deviation text to FAR Part 27 is incorporated into the FAR or this class deviation is otherwise rescinded.

4. Background: On April 15, 2025, the [Executive Order \(EO\) 14275, Restoring Common Sense to Federal Procurement](#), was signed. Section 2 of the EO establishes the policy that the FAR “should only contain provisions required by statute or essential to sound procurement, and any FAR provisions that do not advance these objectives should be removed.”

The FAR is being updated to:

- Remove language that is not required by statute
- Remove duplicative or outdated language
- Clarify or provide more plain language
- Revise language for the new FAR framework
- Retain language necessary for governmentwide acquisition standards.

This project is referred to as the Revolutionary FAR Overhaul (RFO) initiative.

5. Summary of Changes: FAR Part 27, *Patents, Data, and Copyrights*, governs intellectual property rights in government contracts, explaining how parties acquire rights, how rights are licensed or shared, and how to protect both government and contractor interests. It has been updated with important plain language updates, enhanced clarity, and improved readability.

Statutory requirements and presidential directives retained in the RFO FAR Part 27 model deviation include, but are not limited to, the following:

- 10 U.S.C. § 3793, Copyrights, Patents, Designs
- 15 U.S.C. § 638, Research and Development
- 17 U.S.C. §§ 101 et. seq., Copyrights
- 18 U.S.C. § 798, Disclosure of Classified Information
- 28 U.S.C. § 1498, Patent and Copyright Cases
- 35 U.S.C. §§ 200 et. seq., Patent Rights in Inventions Made with Federal Assistance
- 41 U.S.C. § 2302, Rights in Technical Data

Change	Description
--------	-------------

Retained	• Section 27.000, “Scope of Part” is retained with a minor plain language update. • Section 27.001, “Definition” is unchanged. • Subpart 27.1, “General” is retained and streamlined. • Subpart 27.2, “Patents and Copyrights” is streamlined and continues to provide guidance regarding: ○ Patent and copyright infringement liability ○ Royalties ○ Security requirements for patent applications containing classified subject matter • Section 27.202, “Royalties” has been significantly streamlined by reserving all procedural subsections (27.202-1 thru 27.202-4) and retaining only subsection 27.202-5, “Solicitation Provisions and contract clause”. Note, this section no longer references provision 52.227-7, Patents—Notice of Government Licensee, as the provision has been deleted. • Subpart 27.3, “Patent Rights under Government Contracts” is retained and streamlined. ○ Section 27.304, “Procedures” is retained with minimal edits. This section provides critical guidance on application of the patent clauses. • Subpart 27.4, “Rights in Data and Copyrights” is streamlined and retained. This subpart includes intellectual property rights anchored in law and provides important guidance to contracting officers on addressing these issues within a federal contract. ○ Section 27.405, “Other Data Rights Provisions” has been revised and the approach for special works (27.405-1) and existing works (27.405-2) has been fundamentally altered. The previous version prescribed the use of specific contract clauses (52.227-17 and 52.227-18). The revised section instead provides descriptive guidance, instructing that contracts "must specifically address the Government's rights" and that agencies are "authorized to specially negotiate" terms. ○ Section 27.407, “Rights to Technical Data in Successful Proposals” has been retained and completely updated. The former text prescribed the use of the clause at 52.227-23, “Rights to Proposal Data (Technical)”. This clause is removed and the updated section consists of a single, broader sentence that highlights the Government’s discretion. • The following provisions and clauses were retained with no changes in text: ○ 52.227-1 (Clause), Authorization and Consent. ○ 52.227-2 (Clause), Notice and Assistance Regarding Patent and Copyright Infringement ○ 52.227-3 (Clause), Patent Indemnity ○ 52.227-4 (Clause), Patent Indemnity—Construction Contracts

	○ 52.227-5 (Clause), Waiver of Indemnity ○ 52.227-6 (Provision), Royalty Information ○ 52.227-8, remains “Reserved” ○ 52.227-9 (Clause), Refund of Royalties ○ 52.227-10 (Clause), Filing of Patent Applications—Classified Subject Matter ○ 52.227-11 (Clause), Patent Rights—Ownership by the Contractor ○ 52.227-12, remains “Reserved” ○ 52.227-13 (Clause), Patent Rights—Ownership by the Government ○ 52.227-14 (Clause), Rights in Data—General ○ 52.227-15 (Provision), Representation of Limited Rights Data and Restricted Computer Software ○ 52.227-16 (Clause), Additional Data Requirements ○ 52.227-17 (Clause), Rights in Data—Special Works ○ 52.227-20 (Clause), Rights in Data—SBIR Program ○ 52.227-21 (Clause), Technical Data Declaration, Revision, and Withholding of Payment—Major Systems ○ 52.227-22 (Clause), Major System—Minimum Rights

Removed	• Section 27.302, “Policy”, which included unnecessary lengthy detail of the Government's comprehensive policy and objectives for patent rights and title under contracts, has been removed as it is not statutorily required. • Subsection 27.304-1(a), “Status as small business concern or nonprofit organization”, has been removed. 6. Required Action: The CFPB acquisition workforce shall follow the RFO Part 27 model deviation text instead of FAR Part 27 as codified at 48 CFR Chapter 1. The Council’s RFO Part 27 model deviation text is available at [Acquisition.gov/far-overhaul](https://www.acquisition.gov/far-overhaul) and is incorporated into this class deviation.

For new solicitations or contracts, when using any provisions or clauses that have been revised, utilize the RFO model deviation language at RFO FAR Part 52.

For open solicitations or awarded contracts, the contracting officer has discretion regarding the need to enforce or amend the provisions or clauses. Note that without some of the removed provisions or clauses, the contracting officer may be required to separately address certain aspects in the contract.

Contracting activities must review templates and related standard operating procedures to align with this deviation and remove unnecessary processes and steps.

7. Applicability: This class deviation applies to all CFPB procurements.

8. Authority: This deviation is issued under the authority of Executive Order 14275, OMB Memo M-25-26, 48 CFR 1.4 and RFO FAR 1.304.
