

**Class Deviation for Federal Acquisition Regulation Part 53 in accordance with Executive Order 14275, “Restoring Common Sense to the Federal Procurement”
(2026-0049)**

1. Purpose: To issue a class deviation to Federal Acquisition Regulation (FAR) Part 53 for purposes of implementing the FAR Council’s model deviation text to FAR Part 53.

2. Effective Date: Immediately.

3. Expiration Date: Expires when the FAR Council’s model deviation text to FAR Part 53 is incorporated into the FAR or this class deviation is otherwise rescinded.

4. Background: On April 15, 2025, the [Executive Order \(EO\) 14275, Restoring Common Sense to Federal Procurement](#), was signed. Section 2 of the EO establishes the policy that the FAR “should only contain provisions required by statute or essential to sound procurement, and any FAR provisions that do not advance these objectives should be removed.”

The FAR is being updated to:

- Remove language that is not required by statute
- Remove duplicative or outdated language
- Clarify or provide more plain language
- Revise language for the new FAR framework
- Retain language necessary for governmentwide acquisition standards.

This project is referred to as the Revolutionary FAR Overhaul (RFO) initiative.

5. Summary of Changes: FAR Part 53, *Forms*, has been streamlined and modernized. Most significantly, rather than maintaining a list of forms within the part text, it directs users to a centralized site (<https://acquisition.gov/FARforms>) as the authoritative repository for all acquisition-related forms.

As a result, this part no longer needs to be amended through the formal rulemaking process every time a form is updated, added, or removed. This drastically reduces the administrative burden on the FAR Council and increases the Government's agility in managing its library of forms.

The "Forms List" referenced in the new 53.101(b) now performs the prescriptive function previously handled throughout this entire Subpart, shifting the FAR's role from a static, self-contained text to a dynamic system that points to live, authoritative resources.

Readers should reference the table at <https://acquisition.gov/FARforms> to review retained forms and their citations for prescribed use throughout the FAR.

The clause 52.253-1, Computer Generated Forms, is retained and updated. The update deletes a reference to the FAR prescriptions, in paragraph (a). This Part does not directly implement any statutory requirements.

6. Required Action: The CFPB acquisition workforce shall follow the RFO Part 53 and corresponding 52 model deviation text instead of FAR Part 53 and 52 as codified at 48 CFR Chapter 1. The Council's RFO Part 53 model deviation text is available at [Acquisition.gov/far-overhaul](https://www.acquisition.gov/far-overhaul) and is incorporated into this class deviation.

For new solicitations or contracts, when using any provisions or clauses that have been revised, utilize the RFO model deviation language at RFO FAR Part 52.

For open solicitations or awarded contracts, the Contracting Officer has discretion regarding the need to enforce or amend the provisions or clauses. Note that without some of the removed provisions or clauses, the Contracting Officer may be required to separately address certain aspects in the contract.

Contracting activities must review templates and related standard operating procedures to align with this deviation and remove unnecessary processes and steps.

7. Applicability: This class deviation applies to all CFPB procurements.

8. Authority: This deviation is issued under the authority of Executive Order 14275, OMB Memo M-25-26, 48 CFR 1.4 and RFO FAR 1.304.
