3-4. U.S. Bank Access Online (AXOL)

U.S. Bank AXOL is the Army GPC servicing bank’s electronic access system (EAS) in which GPC account maintenance, transaction management, and order management take place. AXOL gives program administrators the security, functionality, reliability, and convenience they need to manage and report on all their GPC programs with a single tool. Cardholders and billing officials can track orders and transactions daily as purchases post transaction data in AXOL and upload supporting documentation to ensure timely approval and certification of monthly statements. Appointed CHs, BOs, and A/OPCs must sign in from the PIEE homepage to access the servicing bank’s EAS.
