## 11.103 Market acceptance.

- (a) <u>41 U.S.C.3307(e)</u> provides that, in accordance with agency procedures, the head of an agency *may*, under appropriate circumstances, require *offerors* to demonstrate that the items offered-
- (1) Have either-
- (i) Achieved commercial market acceptance; or
- (ii) Been satisfactorily supplied to an agency under current or recent contracts for the same or similar requirements; and
- (2) Otherwise meet the item description, specifications, or other criteria prescribed in the public notice and *solicitation*.
- (b) Appropriate circumstances *may*, for example, include situations where the agency's minimum need is for an item that has a demonstrated reliability, performance or product support record in a specified environment. Use of market acceptance is inappropriate when new or evolving items *may* meet the agency's needs.
- (c) In developing criteria for demonstrating that an item has achieved commercial market acceptance, the *contracting officer shall* ensure the criteria in the *solicitation*-
- (1) Reflect the minimum need of the agency and are reasonably related to the demonstration of an item's acceptability to meet the agency's minimum need;
- (2) Relate to an item's performance and intended use, not an offeror's capability;
- (3) Are supported by market research;
- (4) Include consideration of items supplied satisfactorily under recent or current Government contracts, for the same or similar items; and
- (5) Consider the entire relevant commercial market, including small business concerns.
- (d) Commercial market acceptance shall not be used as a sole criterion to evaluate whether an item meets the Government's requirements.
- (e) When commercial market acceptance is used, the contracting officer shall document the file to-
- (1) Describe the circumstances justifying the use of commercial market acceptance criteria; and
- (2) Support the specific criteria being used.
