## 15.403-1 Prohibition on obtaining certified cost or pricing data (10 U.S.C. chapter 271 and 41 U.S.C. CHAPTER 35).

(a) *Certified cost or pricing data shall* not be obtained for *acquisitions* at or below the *simplified acquisition threshold*.

(b) *Exceptions to certified cost or pricing data requirements*. The *contracting officer shall* not require *certified cost or pricing data* to support any action (contracts, *subcontracts*, or modifications) (but *may* require *data other than certified cost or pricing data* as defined in FAR 2.101 to support a determination of a fair and reasonable *price* or *cost realism*)—

(1) When the *contracting officer* determines that *prices* agreed upon are based on adequate *price* competition (see standards in paragraph (c)(1) of this subsection);

(2) When the *contracting officer* determines that *prices* agreed upon are based on *prices* set by law or regulation (see standards in paragraph (c)(2) of this subsection);

(3) When a *commercial product* or *commercial service* is being acquired (see standards in paragraph (c)(3) of this subsection);

(4) When a waiver has been granted (see standards in paragraph (c)(4) of this subsection); or

(5) When modifying a contract or *subcontract* for *commercial products* or *commercial services* (see standards in paragraph (c)(3) of this section).

(c) Standards for exceptions from certified cost or pricing data requirements—

(1) Adequate price competition.

(i) A price is based on adequate price competition when-

(A) Two or more responsible *offerors*, competing independently, submit priced *offers* that satisfy the Government's expressed requirement;

(B) Award will be made to the *offeror* whose proposal represents the *best value* (see 2.101) where *price* is a substantial factor in source selection; and

(C) There is no finding that the *price* of the otherwise successful *offeror* is unreasonable. Any finding that the *price* is unreasonable *must* be supported by a statement of the facts and approved at a level above the *contracting officer*.

(ii) For agencies other than DoD, NASA, and the Coast Guard, a *price* is also based on adequate *price* competition when-

(A) There was a reasonable expectation, based on *market research* or other assessment, that two or more responsible *offerors*, competing independently, would submit priced *offers* in response to the *solicitation*'s expressed requirement, even though only one *offer* is received from a responsible

offeror and if-

(1) Based on the *offer* received, the *contracting officer* can reasonably conclude that the *offer* was submitted with the expectation of competition, e.g., circumstances indicate that-

(i) The *offeror* believed that at least one other *offeror* was capable of submitting a meaningful *offer*; and

(ii) The *offeror* had no reason to believe that other potential *offerors* did not intend to submit an *offer*; and

(2) The determination that the proposed *price* is based on adequate *price* competition and is reasonable has been approved at a level above the *contracting officer*; or

(B) *Price* analysis clearly demonstrates that the proposed *price* is reasonable in comparison with current or recent *prices* for the same or similar items, adjusted to reflect changes in market conditions, economic conditions, quantities, or terms and conditions under contracts that resulted from adequate *price* competition.

(2) *Prices set by law or regulation*. Pronouncements in the form of periodic rulings, reviews, or similar actions of a governmental body, or embodied in the laws, are sufficient to set a *price*.

(3) Commercial products and commercial services.

(i) Any acquisition that the contracting officer determines meets the commercial product or commercial service definition in 2.101, or any modification, as defined in paragraph (3)(i) of the commercial product definition, that does not change a commercial product to other than commercial, is exempt from the requirement for certified cost or pricing data. If the contracting officer determines that a product or service claimed to be commercial is not, and that no other exception or waiver applies (e.g., the acquisition is not based on adequate price competition; the acquisition is not based on prices set by law or regulation; and the acquisition exceeds the threshold for the submission of certified cost or pricing data at 15.403-4(a)(1)) the contracting officer shall require submission of certified cost or pricing data.

(ii) In accordance with section <u>41 U.S.C. 3501</u>:

(A) When purchasing services that are not offered and sold competitively in substantial quantities in the commercial marketplace, but are of a type offered and sold competitively in substantial quantities in the commercial marketplace, they *may* be considered *commercial services* (thus meeting the purpose of <u>41 U.S.C.chapter 35</u> and 10 U.S.C. chapter 271 for truth in negotiations) only if the *contracting officer* determines *in writing* that the *offeror* has submitted sufficient information to evaluate, through *price* analysis, the reasonableness of the *price* of such services.

(B) In order to make this determination, the *contracting officer may* request the *offeror* to submit *prices* paid for the same or similar *commercial services* under comparable terms and conditions by both Government and commercial customers; and

(C) If the *contracting officer* determines that the information described in paragraph (c)(3)(ii)(B) of this section is not sufficient to determine the reasonableness of *price*, other relevant information regarding the basis for *price* or cost, including information on labor costs, material costs and overhead rates *may* be requested.

(iii) The following requirements apply to minor modifications defined in paragraph (3)(ii) of the definition of a *commercial product* at 2.101 that do not change the *commercial product* to other than commercial:

(A) For *acquisitions* funded by any agency other than DoD, NASA, or Coast Guard, such modifications of a *commercial product* are exempt from the requirement for submission of *certified cost or pricing data*.

(B) For *acquisitions* funded by DoD, NASA, or Coast Guard, such modifications of a *commercial product* are exempt from the requirement for submission of *certified cost or pricing data* provided the total *price* of all such modifications under a particular contract action does not exceed the greater of the threshold for obtaining *certified cost or pricing data* in <u>15.403-4</u> or 5 percent of the total *price* of the contract at the time of contract award.

(C) For *acquisitions* funded by DoD, NASA, or Coast Guard such modifications of a *commercial* product are not exempt from the requirement for submission of *certified cost or pricing data* on the basis of the exemption provided for at 15.403-1(c)(3) if the total price of all such modifications under a particular contract action exceeds the greater of the threshold for obtaining *certified cost or* pricing data in 15.403-4 or 5 percent of the total price of the contract at the time of contract award.

(iv) Any *acquisition* for other than *commercial products* or services treated as *commercial products* or *commercial services* at 12.102(f)(1), except sole source contracts greater than \$20 million, is exempt from the requirements for *certified cost or pricing data* (41 U.S.C.1903).

(4) Waivers. The head of the contracting activity (HCA) may, without power of delegation, waive the requirement for submission of certified cost or pricing data in exceptional cases. The authorization for the waiver and the supporting rationale shall be in writing. The HCA may consider waiving the requirement if the price can be determined to be fair and reasonable without submission of certified cost or pricing data. For example, if certified cost or pricing data were furnished on previous production buys and the contracting officer determines such data are sufficient, when combined with updated data, a waiver may be granted. If the HCA has waived the requirement for submission of certified cost or pricing data, the contractor or higher-tier subcontractor to whom the waiver relates shall be considered as having been required to provide certified cost or pricing data. Consequently, award of any lower-tier subcontract expected to exceed the certified cost or pricing data threshold requires the submission of certified cost or pricing data unless-

(i) An exception otherwise applies to the *subcontract*; or

(ii) The waiver specifically includes the *subcontract* and the rationale supporting the waiver for that *subcontract*.
