17.204 Contracts.

- (a) The contract *shall* specify limits on the purchase of additional *supplies* or services, or the overall duration of the term of the contract, including any extension.
- (b) The contract shall state the period within which the option may be exercised.
- (c) The period *shall* be set so as to provide the contractor adequate lead time to ensure continuous production.
- (d) The period *may* extend beyond the contract completion date for service contracts. This is necessary for situations when exercise of the *option* would result in the obligation of funds that are not available in the fiscal year in which the contract would otherwise be completed.
- (e) Unless otherwise approved in accordance with agency procedures, the total of the basic and *option* periods *shall* not exceed 5 years in the case of services, and the total of the basic and *option* quantities *shall* not exceed the requirement for 5 years in the case of *supplies*. These limitations do not apply to *information technology* contracts. However, statutes applicable to various classes of contracts, for example, the Service Contract Labor Standards statute (see $\underline{22.1002-1}$), *may* place additional restrictions on the length of contracts.
- (f) Contracts may express options for increased quantities of supplies or services in terms of-
- (1) Percentage of specific line items,
- (2) Increase in specific line items; or
- (3) Additional numbered *line items* identified as the option.
- (g) Contracts *may* express extensions of the term of the contract as an amended completion date or as additional time for performance; *e.g.*, days, weeks, or months.
