## 44.302 Requirements.

- (a) The ACO *shall* determine the need for a CPSR based on, but not limited to, the *past performance* of the contractor, and the volume, complexity and dollar value of subcontracts. If a contractor's sales to the Government (excluding competitively awarded firm-fixed-price and competitively awarded fixed-price with economic price adjustment contracts and sales of commercial *supplies* and *commercial services* pursuant to <u>part 12</u>) are expected to exceed \$25 million during the next 12 months, perform a review to determine if a CPSR is needed. Sales include those represented by prime contracts, subcontracts under Government prime contracts, and modifications. Generally, a CPSR is not performed for a specific contract. The *head of the agency* responsible for contract administration *may* raise or lower the \$25 million review level if it is considered to be in the Government's best interest.
- (b) Once an initial determination has been made under paragraph (a) of this section, at least every three years the ACO *shall* determine whether a purchasing system review is necessary. If necessary, the cognizant *contract administration office* will conduct a purchasing system review.
