HQ AFMC/PK is the designated Air Force focal point for weighted guidelines reporting. DD Form 1547s shall be prepared and reported using the web-based Weighted Guidelines (WGL) Application. The SCO shall appoint a WGL Administrator at each geographic location. The responsibilities of the WGL Administrator are outlined in the WGL Administrator’s Guide. Refer to the web-enabled version of the Profit WGL Application and User Application Guides (Users and Administrators).
5315.405 Price Negotiation

(d) In situations where a contractor inadequately supports the proposed price as fair and reasonable despite all attempts by the contracting officer to secure adequate justification through negotiations, these situations should be elevated and documented as described herein. When the contractor insists on a cost/price or demands a profit or fee that the contracting officer considers unreasonable, the contracting officer shall notify the authority one level above the contracting officer and immediately submit an Egregious Pricing Incident Report Form to the HCA. The contracting officer shall also inform the contractor that such action has been taken and continue to attempt to negotiate a fair and reasonable cost/price.

(1) If the Egregious Pricing situation is not resolved through negotiations, the offeror is ineligible for award unless the HCA determines, in writing, that it is in the best interest of the Government to make award to that offeror, based on consideration of the following:

(i) The program or mission partner need for the item(s) or service(s) in terms of the specific mission contribution;

(ii) The challenges to reaching and efforts made to reach a fair and reasonable cost/price; and

(iii) Increased cost or harm to the Government if award is not made.

(2) The PEO or Wing Commander (or other corresponding authority) and SCO shall certify to the HCA that the conditions listed in 5315.405(d)(1) exist and award should be made. AFFARS 5301.7 provides instructions for the submission of the Determination and Findings (D&F).

(3) Contracting officers, with coordination from the cognizant SCO, must report price negotiation situations, where 5315.405(d)(1) applies, to SAF/AQC no later than 30 days after negotiations have concluded. Update the Egregious Pricing Incident Report Form completed under 5315.405(d) with post-negotiation information and submit a copy of the final negotiation memorandum and D&F as attachments.

(4) The procedures specified in 5315.405(d)(1-3) above apply to situations where certified cost and pricing data are required and to situations when certified cost and pricing data are not required. If used in situations where other than certified cost or pricing data is required and FAR 15.403-3(a)(4) applies, contracting officers should also complete reporting requirements required under 5315.403-3(a)(6)(ii) above.

5315.406-1 Prenegotiation Objectives

(b)(ii) Adjudication Procedures. The contracting officer must forward DCAA requests for Air Force management review through their management chain, and provide the SCO name and contact information to the cognizant DCAA representative. If disagreements remain, the SCO must elevate the issue to SAF/AQC to support any request from DCAA for further elevation of the issue(s).

(b)(90) A Preliminary Price Negotiation Memorandum (PPNM) is required for all actions of $10M or more. The AF PPNM template may be tailored for use.

5315.406-3 Documenting the Negotiation

(a) See the Price Negotiation Memorandum (PNM) Checklist that may be used to ensure PNMs contain all required information. For contract actions valued below the Truthful Cost or Pricing Data
threshold, the AF Streamlined PNM Format for supplies or services is available for use. If the value of the contract action exceeds the Truthful Cost or Pricing Data threshold and no exception to the Truthful Cost or Pricing Data threshold applies, pricing documentation is expected to address the cost element composition of the proposed, objective, and negotiated positions at an appropriate level of detail based on the value and complexity of the pricing action. The final PNM template and streamlined PNM templates for supplies or services may be tailored for use.

5315.407-3 Forward Pricing Rate Agreements

5315.407-4 Should-cost Review

(b) Program should-cost review.

(4) The contracting office organizes and manages the program should-cost review. The team chief is responsible for the completion of the should-cost review team report.

(c)(2)(B) See MP5301.601(a)(i).
