332.703 Contract funding requirements.

332.703-1 General.

(b) The following requirements govern all solicitations and contracts using incremental funding, as appropriate:

(1) The contracting officer shall consider the estimated total cost of the contract, including all planned increments of performance when determining the requirements that must be met before contract execution (e.g., Justification and Approvals, clearances, and approvals).

(2) The solicitation and resultant contract shall include a statement of work or performance work statement that describes the total project, covers all proposed increments of performance, and contains a schedule of planned increments of performance. No funding increment may exceed 1 year, and the services rendered during each increment of performance must provide a specific material benefit that can stand alone if the remaining effort is not funded. The resultant contract shall also include the corresponding amount of funds planned for obligation for each increment of performance.

(3) The contracting officer shall request that offerors respond to the solicitation with technical and cost proposals for the entire project, and shall require distinct technical and cost break-outs of the planned increments of performance.

(4) Proposals shall be evaluated and any discussions and negotiations shall be conducted based upon the total project, including all planned increments of performance.

332.703-71 Incrementally funded cost-reimbursement contracts.

Incremental funding may be used in cost-reimbursement contracts for severable services only when all of the following circumstances are present:
(a) Funding of increments after the initial increment of performance is provided from the appropriation account available for obligation at that time;

(b) The project represents a *bona fide* need of the fiscal year in which the contract is awarded and initially funded (i.e., the initial increment of performance) and is also a *bona fide* need of each subsequent fiscal year whose appropriation will be used; and

(c) The project’s significance provides reasonable assurance that subsequent year appropriations will be made available to fund the project's continuation and completion.

### 332.703-72 Incremental Funding Table.

(a) The contracting officer shall insert substantially the following language in Section B: Supplies or Services and Prices or Costs, Table 1, in all cost-reimbursement contracts for severable services using incremental funding. The language requires the contracting officer to:

1. Insert the initial funding obligated by the award;
2. Identify the increment of performance covered by the funding provided; and
3. Specify the start and end dates for each increment of performance, as required by the "Limitation of Funds" clause at FAR 52.232-22.

(b) Modification of the language is permitted to fit specific circumstances of the contract, including but not limited to language necessary to reflect the specific type of cost reimbursement contract awarded, but the language may not be omitted completely.
