Subpart 952.0—General

Parent topic: PART 952—SOLICITATION PROVISIONS AND CONTRACT CLAUSES

952.000 Scope of part.

This part implements FAR part 52 which sets forth contract clauses for use in connection with the acquisition of personal property and nonpersonal services (including construction), and supplements, as well as modifies, FAR part 52 by prescribing certain modifications to be made to FAR clauses when used in Department of Energy (DOE) contracts and specifying certain Department of Energy Acquisition Regulation clauses to be used in addition to or in place of such FAR clauses.

952.001 General policy.

It is DOE policy to use the prescribed FAR and DOE contract clauses wherever practicable. Uniformity in the use of contract clauses helps to ensure impartial treatment of all contractors, expedites negotiation and contract review, and facilitates contract administration.
