PGI 204.7303-1 General.

- (a) The contracting officer will be notified by the requiring activity when a solicitation is expected to result in a contract, task order, or delivery order that will involve—
- (1) Covered defense information; or
- (2) Operationally critical support.
- (b) The contracting officer shall—
- (1) Ensure that the requiring activity provides a work statement or specification that includes the identification of covered defense information or operationally critical support consistent with paragraph (a).
- (2) Ensure that the solicitation and resultant contract, task order, or delivery order includes the requirement (such as a contract data requirements list), as provided by the requiring activity, for the contractor to apply markings, when appropriate, on covered defense information.
