PGI 225.001 General.

Consider the following when evaluating offers of foreign end products:

(1) *Statutory or policy restrictions.*

(i) Determine whether the product is restricted by—

(A) Statute (see DFARS Subpart 225.70); or

(B) DoD policy (see DFARS Subpart 225.71, FAR 6.302-3, and DoD Directive 5230.11, Disclosure of Classified Military Information to Foreign Governments and International Organizations).

(ii) If an exception to or waiver of a restriction in DFARS Subpart 225.70 or 225.71 would result in award of a foreign end product, apply the policies and procedures of the Buy American statute or the Balance of Payments Program, and, if applicable, the trade agreements.

(2) *Memoranda of understanding or other international agreements.* Determine whether the offered product is the product of one of the qualifying countries listed in DFARS [225.872-1](#).

(3) *Trade agreements.* If the product is not an eligible product, a qualifying country end product, or a U.S.-made end product, purchase of the foreign end product may be prohibited (see FAR 25.403(c) and DFARS [225.403\(c\)](#)).

(4) *Other trade sanctions and prohibited sources.*

(i) Determine whether the offeror complies with the secondary Arab boycott of Israel. Award to such offerors may be prohibited (see DFARS Subpart 225.76).

(ii) Determine whether the offeror is a prohibited source (see FAR Subpart 25.7 and DFARS Subpart 225.7).

(5) *Buy American and Balance of Payments Program.* See the evaluation procedures in DFARS Subpart 225.5.

PGI 225.070 Reporting of acquisition of end products manufactured outside the United States.

(1) *Definitions.* "Manufactured end product" and "place of manufacture" are defined in the provision at FAR 52.225-18, Place of Manufacture.

(2) Use the Federal Procurement Data System data field "Place of Manufacture," under the section on Product or Service Information, to enter data on the acquisition of end products manufactured outside the United States for contracts awarded and orders issued in fiscal year 2007 and subsequent fiscal years. Select the appropriate description in accordance with the following table:

Place of Manufacture

Short Description as viewed in
drop down box

Long Description

Manufactured or performed
outside United States
(Actions prior to FY 2007 only)

The action is for (i) Any foreign end product manufactured outside the United States; or (ii) Services performed outside the United States by a foreign concern.

Mfg in U.S.

The action is predominantly for acquisition of manufactured end products that are manufactured in the United States.

Mfg outside U.S. - Commercial
information technology

The foreign manufactured end products are predominantly commercial information technology items (FAR 25.103(e)).

Mfg outside U.S. - Domestic
nonavailability

The foreign manufactured end products were predominantly not domestically available as shown by one of the following:

The item is listed at FAR 25.104 (FAR 25.103(b)(1)).

The agency did an individual determination (FAR 25.103(b)(2)).

No offer of a domestic end product was received, even though the acquisition was synopsized and conducted through full and open competition (FAR 25.103(b)(3)).

Mfg outside U.S -Public
interest determination

The head of the agency has made a determination that domestic preferences would be inconsistent with the public interest (FAR 25.103(a)).

Mfg outside U.S. - Qualifying
country

For DoD only, the foreign manufactured end products are predominantly qualifying country end products (DFARS [225.003](#) and [225.872-1](#)).

Mfg outside U.S. - Resale	The foreign manufactured end products acquired are predominantly for resale (FAR 25.103(d)).
Mfg outside U.S. - Trade Agreements	The foreign manufactured end products are predominantly eligible products acquired under Trade Agreements (FAR 25.402(a)(1)).
Mfg outside U.S. - Unreasonable cost	The cost of the offered domestic end products was unreasonable (FAR 25.103(c), 25.105, and Subpart 25.5).
Mfg outside U.S. - Use outside the United States	The foreign manufactured end products acquired are predominantly for use outside the United States (FAR 25.100).
More than 50% of foreign content, but manufactured in United States (Actions prior to FY 2007 only)	The action is for (i) A foreign end product that is manufactured in the United States but still determined to be foreign because 50 percent or more of the cost of the components is not mined, produced, or manufactured inside the United States or qualifying countries; or (ii) Services performed in the United States by a foreign concern.
Not applicable	The action is NOT predominantly for acquisition of manufactured end products.

(3) Note that the first and second from the last options in the drop down box are to be used only for reporting of contracts awarded or orders issued prior to October 1, 2006.

(4) The other options in the drop down box apply only to contracts awarded and orders issued on or after October 1, 2006. If the solicitation for the contract contains the provision at FAR 52.225-18, Place of Manufacture (or the commercial product equivalent at FAR 52.212-3(j)), the contracting officer must review the successful offeror's response to this provision to select the correct option.

(i) Enter "Mfg in U.S." if the offeror has checked the box "In the United States."

(ii) If the offeror has checked the box "Outside the United States," enter one of the other options, depending on the predominant reason for acquiring end products manufactured outside the United States. These reasons correspond to the exceptions to the Buy American statute (FAR Subpart 25.1 and DFARS Subpart 225.1). Further explanation of these exceptions to the Buy American statute are available at the FAR and DFARS references provided in the long description for each option.

(5) For any contract awarded on or after October 1, 2006, when the solicitation did not include the provision at FAR 52.225-18, Place of Manufacture (or FAR 52.212-3(j)), and for any order placed on or after October 1, 2006, under a contract that did not include one of these provisions, the contracting officer shall use best judgment in estimating whether the acquisition is predominantly for manufactured end products and whether the end products were predominantly end products manufactured in the United States or outside the United States, using the place of performance or other information that may be available to the contracting officer to assist in forming this judgment.

PGI 225.1 - BUY AMERICAN—SUPPLIES

PGI 225.101 General.

(d)(1) When the contracting officer obtains the approval from the senior procurement executive (this authority is not delegable) to allow for the application of an alternate domestic content test for the contract, the contracting officer shall ensure the documentation evidencing the senior procurement executive's consultation with the Office of Management and Budget's Made in America Office and subsequent allowance for the application of an alternate domestic content test is included in the contract file.

PGI 225.2 - BUY AMERICAN—CONSTRUCTION MATERIALS

PGI 225.270 Energy savings service contracts.

(a) For DoD energy savings service contracts, the requirements documents from the requiring activity are required to specify if construction and construction materials will be used during the performance of the contract. If specified, the contracting officer shall—

(1) Include the FAR provisions and clauses regarding construction materials that implement the Buy American statute; and

(2) Enforce them based on the associated terms and conditions of the contract.

(b) See [FAR subpart 23.2](#), Energy Savings Performance Contracts.

PGI 225.3 -CONTRACTSPERFORMED OUTSIDE THE UNITED STATES

PGI 225.370 Contracts requiring performance or delivery in a foreign country.

(a) If the acquisition requires the performance of services or delivery of supplies in an area outside the United States, the contracting officer shall—

(i) Ensure that the solicitation and contract include any applicable host country and designated operational area performance considerations. Failure to provide such information—

(A) May result in a contract that does not reflect the respective support relationships between the contractor and the Government, ultimately affecting the ability of the contractor to fulfill the contract terms and conditions;

(B) May result in unplanned support burdens being placed on the Government in a theater of operations;

(C) May result in contractor personnel conflicting with theater operations or performing in violation of a theater commander's directives or host country laws; or

(D) May cause contractor personnel to be wrongly subjected to host country laws;

(ii) Comply with any theater business clearance and contract administration delegation requirements set forth in the memorandum

(<https://www.acq.osd.mil/dpap/policy/policyvault/USA004346-12-DPAP.pdf>) entitled Theater Business Clearance/Contract Administration Delegation Update—Integration of TBC with the Joint Contingency Contracting System Platform, which must be consistent with the combat support agency's established functions and responsibilities, and set forth by the geographic combatant commander during declared contingency operations for all solicitations and contracts that relate to the delivery of supplies and services to the designated area(s) of operation. The memorandum is available at <https://www.acq.osd.mil/dpap/policy/policyvault/USA004346-12-DPAP.pdf>

(A) Theater business clearance ensures—

(1) Contracted effort to be accomplished in designated area(s) of operations, along with any associated contractor personnel, is visible to the combatant commander;

(2) Contracted effort is in consonance with in-country commanders' plans;

(3) Solicitations and contracts contain appropriate terms and conditions;

(4) Contracted effort will be properly overseen in designated area(s) of operation;

(5) Any Government-furnished support requirements associated with contractor personnel are properly addressed in the contract terms and conditions.

(B) Contract administration delegation—

(1) Allows the combatant commander to exercise control over the assignment of contract administration (which must be consistent with the combat support agency's established functions and responsibilities) for that portion of contracted effort that relates to performance in, or delivery to, designated area(s) of operation.

(2) Allows the combatant commander to exercise oversight to ensure the contractor's compliance with combatant commander and subordinate task force commander policies, directives, and terms and conditions;

(iii) Refer to the website at <https://www.acq.osd.mil/asda/dpc/cp/cc/index.html> , which contains required procedures and applicable guidance and information;

(iv) Follow specific guidance for the combatant command in whose area the contractor will be performing services or delivering supplies. This guidance is contained on the respective combatant commander's operational contract support webpage, which is linked to the procedures at <https://www.acq.osd.mil/asda/dpc/cp/cc/aor.html> , at the web-link for the combatant command for the area in which the contractor will be performing services or delivering items. These pages list prevailing regulations, policies, requirements, host nation laws, orders/fragmentary orders, combatant commander's directives, unique clauses, and other considerations necessary for soliciting and awarding a contract for performance in, or delivery of items to, that combatant commander's area of responsibility;

(v) To determine the appropriate point(s) of contact for contracting matters within the combatant commander's area of responsibility, contact the overseas contracting office by accessing the link for the combatant command in whose area of responsibility the contractor will be performing services or delivering items. From the combatant command website, link to the contracting office supporting the combatant command to identify the appropriate point of contact; and

(vi) Use the following checklist as a guide to document consideration of each listed issue, as applicable, and retain a copy of the completed checklist in the contract file.

CHECKLIST

PGI 225.373 Contract administration in support of contingency operations.

- (1) In accordance with Joint Publication 1, Doctrine for the Armed Forces of the United States, at http://www.apexnet.org/docs/Joint_Publication_1.pdf, the geographic combatant commander or subordinate joint force commander, through his command authority to exercise operational control, has the authority to exercise control over the assignment of contract administration during contingency operations, consistent with the combat support agency's established mission functions, responsibilities, and core competencies, for contracts requiring delivery of items or performance within the area of operations.
- (2) In certain contingency operations, the combatant commander or joint force commander may promulgate theater or joint operations area guidance for contracting that may include establishing—
 - (i) A contracting command and control structure;
 - (ii) Head of contracting activity responsibilities, specific orders, and policies, including local clauses;
 - (iii) Roles and responsibilities of DoD components and supporting agencies in contract formation and execution; and

(iv) Procedures and requirements for contract clearance and contract administration of contracts requiring delivery of items and performance within the area of operations.

(3) When a combat support agency is tasked by the combatant commander to provide contingency contract administration services in support of contingency operations and such support will be required for a long duration, the combat support agency shall initiate a memorandum of agreement with the combatant commander or joint force commander. This agreement shall clearly delineate the purpose of the support, respective responsibilities of the combat support agency and the joint, lead service, or service contracting activity requesting the support, combat support agency support parameters, and a resolution process for resolving support issues.

(i) The memorandum of agreement should focus on maximizing the combat support agency's core competencies to address the more critical, complex, high-risk, and specialized oversight requirements.

(ii) The memorandum of agreement should take into consideration the combat support agency's core competencies, workload priorities, and contract administration services support parameters for accepting requests for contract administration services support.

(iii) A combat support agency shall not be assigned to perform tasks outside its mission functions, responsibilities, or core competencies.

(iv) Contracting officers contemplating requesting contract administration support in a contingency area from a combat support agency should first ascertain whether such a memorandum of agreement exists by contacting their combat support agency point of contact and/or checking the combatant commander operational contract support website (referenced in DFARS PGI [225.370](#)).

(v) The following is a notional format for a memorandum of agreement for contract administration services support;

(A) Purpose: Outline formal procedures for requesting contract administration services support, describe objectives associated with combat support agency providing such support.

(B) Reference: Key documents or reference(s) associated with the execution of the contract administration services support.

(C) Clearing-house functions performed by the designated joint or lead component contracting activity in the operational area—

(1) Contract clearance parameters - when required;

(2) Contract delegation parameters - when required.

(D) Contract administration services support parameters—

(1) Acceptable for delegation - contract types that will be accepted by the combat support agency based on risk, dollar threshold, geographic dispersion of performance, service type, criticality of acceptance, or other criteria;

(2) Generally not be delegated - below-threshold contract types;

(3) Will not be delegated - no agency expertise to oversee.

(E) Delegation process – process for accepting and assigning contract administration services tasks within the combat support agency.

(F) Joint resolution process – procedures in the event of disagreement on actions to be supported by the combat support agency.

(G) Term of the Agreement and Modification - length of time the agreement will be in effect and procedures for the parties to modify or terminate it.

(4) Disputes regarding requested support should be resolved at the lowest management level possible, through a predetermined resolution process. When support issues arise that affect the ability of a combat support agency to provide contract administration support that cannot be resolved at lower management levels, follow procedures set forth in DoDI 3000.06, Combat Support Agencies, paragraphs 5.6.8 and 5.6.9, (<http://www.dtic.mil/whs/directives/corres/pdf/300006p.pdf>).

(5) Responsibilities of the head of the contracting activity for contingency contract closeout are addressed at DFARS [204.804\(2\)](#). See also planning considerations at PGI [207.105](#) (b)(20)(C)(8).

PGI 225.5 -EVALUATING FOREIGN OFFERS-SUPPLY CONTRACTS

PGI 225.504 Evaluation examples.

The following examples illustrate the evaluation procedures in DFARS [225.502\(c\)\(ii\)](#). The examples assume that the contracting officer has eliminated all offers that are unacceptable for reasons other than price or a trade agreement and that price is the determining factor in contract award. The same evaluation procedures and the 50 percent evaluation factor apply regardless of whether the acquisition is subject to the Buy American Act (BAA) or the Balance of Payments Program (BOPP).

(1) Example 1.

Offer A \$945,000 Foreign offer subject to BAA/BOPP

Offer B \$950,000 Foreign offer exempt from BAA/BOPP

Since no domestic offers are received, do not apply the evaluation factor. Award on Offer A.

(2) Example 2.

Offer A \$950,000 Domestic offer

Offer B \$890,000 Foreign offer exempt from BAA/BOPP

Offer C \$880,000 Foreign offer subject to BAA/BOPP

Since the exempt foreign offer is lower than the domestic offer, do not apply the evaluation factor. Award on Offer C.

(3) Example 3.

Offer A \$9,100 Foreign offer exempt from BAA/BOPP

Offer B \$8,900 Domestic offer

Offer C \$6,000 Foreign offer subject to BAA/BOPP

Since the domestic offer is lower than the exempt foreign offer, apply the 50 percent evaluation factor to Offer C. This results in an evaluated price of \$9,000 for Offer C. Award on Offer B.

(4) Example 4.

Offer A \$910,000 Foreign offer exempt from BAA/BOPP

Offer B \$890,000 Domestic offer

Offer C \$590,000 Foreign offer subject to BAA/BOPP

Since the domestic offer is lower than the exempt foreign offer, apply the 50 percent evaluation factor to Offer C. This results in an evaluated price of \$885,000 for Offer C. Award on Offer C.

(5) Example 5.

Offer A \$900,000 Foreign offer exempt from BAA/BOPP

Offer B \$850,000 Domestic offer (complies with the required domestic content)

Offer C \$550,000 Foreign offer subject to BAA/BOPP (exceeds the required domestic content)

Since the domestic offer complies with the required domestic content and is lower than the exempt foreign offer, apply the 50 percent evaluation factor to Offer C. This results in an evaluated price of \$825,000 for Offer C. Award on Offer C.

SERVICE OR AGENCY

Exemption of the Buy American and Balance of Payments Program Determination and Findings

Upon the basis of the following findings and determination which I hereby make in accordance with the provisions of FAR 25.103(a), the acquisition of a qualifying country end product may be made as

follows:

Findings

1. The (*contracting office*) proposes to purchase under contract number _____, (*describe item*) mined, produced, or manufactured in (*qualifying country of origin*). The total estimated cost of this acquisition is _____.
2. The United States Government and the Government of _____ have agreed to remove barriers to procurement at the prime and subcontract level for defense equipment produced in each other's countries insofar as laws and regulations permit.
3. The agreement provides that the Department of Defense will evaluate competitive offers of qualifying country end products mined, produced, or manufactured in (*qualifying country*) without imposing any price differential under the Buy American statute or the Balance of Payments Program and without taking applicable U.S. customs and duties into consideration so that such items may better compete for sales of defense equipment to the Department of Defense. In addition, the Agreement stipulates that acquisitions of such items shall fully satisfy Department of Defense requirements for performance, quality, and delivery and shall cost the Department of Defense no more than would comparable U.S. source or other foreign source defense equipment eligible for award.
4. To achieve the foregoing objectives, the solicitation contained the clause (*title and number of the Buy American clause contained in the contract*). Offers were solicited from other sources and the offer received from (*offeror*) is found to be otherwise eligible for award.

Determination

I hereby determine that it is inconsistent with the public interest to apply the restrictions of the Buy American statute or the Balance of Payments Program to the offer described in this determination and findings.

(b)(i) When contract administration services are required on contracts to be performed in qualifying countries, direct the request to the cognizant activity listed in the Federal Directory of Contract Administration Services. The cognizant activity also will arrange contract administration services for DoD subcontracts that qualifying country sources place in the United States.

(ii) The contract administration activity receiving a delegation shall determine whether any portions of the delegation are covered by memoranda of understanding annexes and, if so, shall delegate those functions to the appropriate organization in the qualifying country's government.

PGI 225.9 -CUSTOMS AND DUTIES

PGI 225.902 Procedures.

(1) Formal entry and release.

(i) The administrative contracting officer shall—

(A) Ensure that contractors are aware of and understand any Duty-Free Entry clause requirements. (B) Upon receipt of the required notice of purchase of foreign supplies from the contractor or any

PGI 225.903 Exempted supplies.

(b)(i) The term “supplies”—

(A) Includes—

(1) Articles known as “stores,” such as food, medicines, and toiletries; and

(2) All consumable articles necessary and appropriate for the propulsion, operation, and maintenance of the vessel or aircraft, such as fuel, oil, gasoline, grease, paint, cleansing compounds, solvents, wiping rags, and polishes; and

PGI 225.70 -AUTHORIZATION ACTS, APPROPRIATIONS ACTS, AND OTHER STATUTORY RESTRICTIONS ON FOREIGN ACQUISITION

PGI 225.7002 Restrictions on food, clothing, fabrics, and hand or measuring tools.

PGI 225.7002-1 Restrictions.

(a)(1)(ii)(1) The following are examples, not all-inclusive, of Product and Service Codes (PSCs) that contain items of clothing:

(i) Clothing apparel (such as outerwear, headwear, underwear, nightwear, footwear, hosiery, or handwear) listed in PSC 8405, 8410, 8415, 8420, 8425, 8450, or 8475.

(ii) Footwear listed in PSC 8430 or 8435.

(iii) Hosiery, handwear, or other items of clothing apparel, such as belts and suspenders, listed in PSC 8440 or 8445.

(iv) Badges or insignia listed in PSC 8455.

(2) The PSCs listed in paragraph (a)(1)(ii)(1) of this section also contain items that are not clothing, such as—

(i) Visors;

(ii) Kevlar helmets;

(iii) Handbags; and

(iv) Plastic identification tags.

(3) Each item should be individually analyzed to determine if it is clothing, rather than relying on the PSC alone to make that determination.

(4) The fact that an item is excluded from the foreign source restriction of the Berry Amendment applicable to clothing does not preclude application of another Berry Amendment restriction in DFARS [225.7002-1](#) to the components of the item.

(5) Small arms protective inserts (SAPI plates) are an example of items added to, and not normally associated with, clothing. Therefore, SAPI plates are not covered under the Berry Amendment as clothing. However, fabrics used in the SAPI plate are still subject to the foreign source restrictions of the Berry Amendment. If the fabric used in the SAPI plate is a synthetic fabric or a coated synthetic fabric, the fibers and yarns used in the fabric are not covered by the Berry Amendment, because the fabric is a component of an end product that is not a textile product (see DFARS [225.7002-2\(m\)](#)).

Example: A SAPI plate is compliant with the Berry Amendment if the synthetic fiber or yarn is obtained from foreign country X and woven into synthetic fabric in the United States, which is then incorporated into a SAPI plate manufactured in foreign country Y.

(2) *Hand or measuring tools.*

(A) As applied to hand or measuring tools, “produced in the United States” means that the hand or measuring tool was assembled in the United States out of components, or otherwise made from raw materials into the finished product that is to be provided to the Government.

(B) If a hand or measuring tool was assembled in a country other than the United States, then disassembled and reassembled in the United States, the hand or measuring tool was not produced in the United States.

(C) The requirement to buy hand or measuring tools produced in the United States does not impose any restriction on the source of the components of the hand or measuring tools. This is unlike the Berry Amendment restriction on clothing (see [225.7002-1](#) (a)(1)(ii)), which explicitly requires

domestic source for the materials and components of clothing (other than unusual components such as sensors or electronics), as well as the additional separate restrictions on various types of fibers and fabrics that might be components of the clothing.

(D) If the acquisition of the hand or measuring tools is also subject to the Buy American statute (see FAR Subpart 25.1), then in order to qualify as a domestic end product, the cost of the components mined, produced, or manufactured in the United States or a qualifying country, must exceed 50 percent of the cost of all the components of the hand or measuring tool.

PGI 225.7002-2 Exceptions.

(b) *Domestic nonavailability determinations.*

(3) *Defense agencies other than the Defense Logistics Agency.*

(A) A defense agency requesting a domestic nonavailability determination must submit the request, including the proposed determination, to—

Principal Director, Defense Pricing, Contracting, and Acquisition Policy

ATTN: OUSD(A&S) DPCAP/CP

3060 Defense Pentagon

Washington, DC 20301-3060.

(B) The Principal Director, Defense Pricing, Contracting, and Acquisition Policy, will forward the request to the Under Secretary of Defense (Acquisition and Sustainment) (USD(A&S)) as appropriate.

PGI 225.7003 Restrictions on acquisition of specialty metals.

PGI 225.7003-2 Restrictions.

(a)(i) This restriction applies to the item containing the specialty metal, not just the specialty metal, as was true when the restriction was part of 10 U.S.C. 4862. The previous practice of withholding payment while conditionally accepting noncompliant items is not permissible for—

(A) Contracts entered into on or after November 16, 2006; or

(B) New procurements or out-of-scope changes accomplished on or after November 16, 2006, through the use of bilateral modifications to contracts originally awarded prior to November 16, 2006.

(ii) Consistent with the definition of “component” in the clause at DFARS [252.225-7009](#), a component is any item supplied to the Government as part of an end item or of another component. Items that are not incorporated into any of the items listed in DFARS [225.7003-2\(a\)](#) are not components of those items. For example, test equipment, ground support equipment, or shipping containers are not components of the missile system.

PGI 225.7003-3 Exceptions.

(b)(2) Report of COTS items.

If a department or agency uses the exception at DFARS 225.7003-3(b)(2) for an acquisition of COTS end items valued at \$5 million or more per item, the department or agency shall address use of the exception in a year-end report, to be prepared and submitted as follows:

(A) Entitle the report "COTS Specialty Metal Exceptions Granted During Fiscal Year ____."

(B) For each excepted COTS item purchased during the fiscal year, include in the report, at a minimum, the applicable—

(1) Contract number and any applicable delivery order number;

(2) Dollar value; and

(3) Item description.

(C) Submit the report by October 31 of each year to:

Principal Director, Defense Pricing, Contracting, and Acquisition Policy

ATTN: OUSD(A&S) DPCAP/CP

3060 Defense Pentagon

Washington, DC 20301-3060.

(4) For samarium-cobalt magnets contained in an item listed in 225.7003-2(a) manufactured in a qualifying country, see paragraph (b)(6)(C) of this section.

(5) Domestic specialty metals nonavailable as and when needed.

(A) Determining availability.

(1) FAR 15.402 requires that contracting officers purchase supplies and services at fair and reasonable prices. Thus, contracting officers must determine whether any increase in contract price that results from providing compliant specialty metal is fair and reasonable, given the circumstances of the particular situation. In those cases where the contracting officer determines that the price would not be fair and reasonable, the Secretary of the military department concerned may use that information in determining whether the unreasonable price causes the compliant metal to be effectively "nonavailable." Where these "reasonableness" limits should be drawn is a case-by-case decision.

(2) A similar approach may be used to determine whether delays associated with incorporating compliant specialty metals into items being acquired results in the metals being effectively nonavailable.

(B)(1) A department or agency requesting a determination or approval from USD(A&S) in accordance with DFARS 225.7003-3(b)(5) shall submit the request, including the proposed determination, to—

Principal Director, Defense Pricing, Contracting, and Acquisition Policy

ATTN: OUSD(A&S) DPCAP/CP

3060 Defense Pentagon

Washington, DC 20301-3060.

(2) The Principal Director, Defense Pricing, Contracting, and Acquisition Policy (DPCAP), will forward the request to USD(A&S) as appropriate.

(C) For domestic nonavailability determinations with regard to samarium-cobalt high performance magnets, see paragraph (b)(6)(D) of this section.

(6) Application of specialty metals restrictions to magnets.

(A) The two most common types of high performance magnets are samarium-cobalt magnets and neodymium-iron-boron magnets. Only samarium-cobalt magnets contain specialty metals and are subject to the restrictions of 10 U.S.C. 4863 in this section, as well as the restrictions of 10 U.S.C. 4872 at [225.7018](#) . Neodymium-iron-boron magnets are only subject to the restrictions of 10 U.S.C. 4872 at [225.7018](#) , because they do not contain specialty metals. There are no other commonly used magnets that contain specialty metals.

(B) Table.

HPM = High performance magnet

COTS = Commercially available off-the-shelf

SmCo = Samarium Cobalt

Magnet made of specialty metal is:	Commercially available, SmCo HPM	NOT Commercially available, SmCo HPM
Incorporated into COTS subsystem or COTS end item	NOT restricted	*
NOT incorporated into COTS subsystem or COTS end item	Restricted	Restricted
Included in 2 percent minimum content?	Cannot be included in 2 percent minimum content	Cannot be included in 2 percent minimum content

* By definition, COTS assemblies and COTS end items will not include a HPM that is not commercially available.

(C) Samarium-cobalt magnets contained in an item manufactured in a qualifying country are still subject to the requirements of 10 U.S.C. 4872, because there is no exception in 10 U.S.C. 4872 for items manufactured in a qualifying country comparable to the exception at [225.7003-3](#) (b)(4) to the

specialty metal restrictions of 10 U.S.C. 4863.

(D) Even if samarium-cobalt magnets are determined to be domestically nonavailable under this section, the restrictions of 10 U.S.C. 4872 still apply unless samarium-cobalt magnets melted or produced outside a covered country are also determined to be nonavailable in accordance with [225.7018-4](#) .

(c) *Compliance for commercial derivative military articles.*

(i) A department or agency requesting a determination or approval from USD(A&S) in accordance with DFARS [225.7003-3\(c\)](#) shall submit the request, including the proposed determination, to—

Principal Director, Defense Pricing, Contracting, and Acquisition Policy

ATTN: OUSD(A&S) DPCAP/CP

3060 Defense Pentagon

Washington, DC 20301-3060.

(ii) The Principal Director, DPCAP, will forward the request to USD(A&S) as appropriate.

(d) *National security waiver.*

(i) A department or agency shall request a national security waiver of the restrictions of 10 U.S.C. 4863 from USD(A&S) in accordance with DFARS [225.7003-3\(d\)](#) in a timely manner after discovering or being informed of a specialty metals noncompliance in an item, or component thereof, listed at [225.7003-2](#) (a) and covered by 10 U.S.C. 4863. The department or agency shall submit the request, via the chain of command, including the draft determination and draft letters of notification to the congressional defense committees, as follows:

Principal Director, Defense Pricing, Contracting, and Acquisition Policy

ATTN: OUSD(A&S) DPCAP/CP

3060 Defense Pentagon

Washington, DC 20301-3060

(ii) The request shall include—

(A) The quantity of end items to which the waiver would apply;

(B) The time period that the waiver will cover;

(C) How and when the noncompliance was discovered—

(1) By the subcontractor(s);

(2) By the contractor; and

(3) By the department or agency;

(D) A complete description of all of the items or systems containing noncompliant specialty metals;

- (E) The contract number(s), date(s), duration, and subcontractor(s) associated with the noncompliance;
 - (F) The manufacturer and country of origin of the noncompliant material, if known;
 - (G) Whether the contractor flowed down the DFARS clause to the subcontractors and in what format (e.g., exact quote or substantially the same?);
 - (H) A technical description of the affected parts, their role in the larger assembly, and their function in the end item;
 - (I) Estimated cost and schedule to replace noncompliant parts if a national security waiver is not granted;
 - (J) Operational and safety implications;
 - (K) Other national security considerations (such as how the requested waiver will contribute to national security policy or operational security);
 - (L) A description of the contractor's efforts to develop and implement a corrective plan to ensure future compliance; and
 - (M) Information helpful to a determination as to whether any noncompliance was knowing and willful.
- (iii) The Director, Defense Procurement and Acquisition Policy, will forward the request to USD(A&S) as appropriate.

PGI 225.7018 Restriction on acquisition of certain magnets, tantalum, and tungsten.

PGI 225.7018-3 Exceptions.

(c)(1) Commercially available off-the-shelf samarium-cobalt magnets are still subject to the restrictions of 10 U.S.C. 4863 unless incorporated into commercially available off-the-shelf end items or subsystems (see (b)(2)(i)(C)).

(2) A samarium-cobalt magnet that is exempt from 10 U.S.C. 4872 because it is incorporated in an electronic device is still subject to the restrictions of 10 U.S.C. 4863, because the exemption under that statute applies to "electronic component," which excludes any high performance magnet used in the electronic component (see definition of "electronic component" at [225.7003-1](#)).

PGI 225.7018-4 Nonavailability determination.

(a) Individual nonavailability determinations.

(2) Contracting officers may use the following template for individual nonavailability determinations under this section:

PGI 225.7019 Prohibition on use of certain energy sourced from inside the Russian Federation.

PGI 225.7019-3 Waiver.

(a) The following are factors to take into consideration for granting a waiver:

(1) The energy supply system is physically incapable of segregating Russian Federation energy from non-Russian Federation energy.

(2) The installation can only obtain the necessary energy from its current supplier without the unaffordable expense of constructing new supply lines.

(3) The price of requiring the supplier to segregate the energy is unaffordable and would result in the installation being unable to perform its mission within its budget authority.

(4) Consideration, by the requiring activity, of installation energy and security resilience has been taken into account (e.g., on-site sources of energy and fuel resupply would allow the installation to continue to perform its mission even with disruption of Russian Federation-sourced energy, the installation has addressed energy resilience and security risks and vulnerabilities, etc.).

(b) The head of the contracting activity shall submit to the congressional defense committees a notice of the waiver with a copy to DPCAP, Contract Policy, via email at osd.pentagon.ousd-a-s.mbx.dpc-cp@mail.mil, at least 14 days before the award of an energy contract on the basis of an approved waiver. (5) Operational and national security implications;

(6) Other national security considerations, such as how the requested waiver will contribute to national security policy or operational security.

PGI 225.73 -ACQUISITIONS FOR FOREIGN MILITARY SALES

PGI 225.7300 Scope of subpart.

(a) The Foreign Military Sales (FMS) acquisition infrastructure is also used to execute cases funded with U.S. appropriated funds under special authority to build international partner capacity. These Building Partner Capacity (BPC) cases are implemented using Pseudo Letter of Offer and Acceptance (LOA) documents.

PGI 225.7301 General.

- (c)(i) Separately identify known FMS requirements and the FMS customer in solicitations.
- (ii) For economies of scale and efficiency, combine U.S. and FMS requirements under the same contract whenever possible. It is not in the taxpayer's interest to concurrently use mixed contract types for the same or similar items.
- (iii) Clearly identify contracts for known FMS requirements by the case identifier code in section B of the Schedule.
- (iv) Ensure that the FMS LOA terms and conditions are incorporated into the signed contract.
- (v) Ensure that the shipping terms for any contract for FMS materiel are stated as free on board (f.o.b.) origin.
- (vi) For Pseudo LOAs, ensure that the period of performance in the contract is consistent with the period of availability of appropriated funds, as provided by the financial resource manager.
- (vii) Consistent with the Defense Transportation Regulations (DTR) 4500.9-R-Part II, Cargo Movement, <http://www.transcom.mil/dtr/part-ii/>, Appendix E, contracting officers shall ensure that contracts involving the acquisition and delivery of FMS materiel comply with the policies, procedures, packaging, labeling, and documentation requirements specified by the DTR.
- (viii) The Government representative responsible for acceptance shall ensure that the contractor prepares material inspection and receiving reports in compliance with—
 - (A) Appendix F, F-301(b)(15)(iv)(K) for a Wide Area WorkFlow (WAWF) Receiving Report; or
 - (B) F-401(b)(16)(iv)(L) for a paper DD Form 250, Material Inspection and Receiving Report, if an exception to the use of WAWF at [232.7003](#) applies.
- (ix) Prior to contract award, contracting officers shall ensure that—
 - (A) If a contracting officer's representative is assigned, detailed point of contact information (email, phone number with international dialing protocols, and physical and mailing address) shall be clearly visible;
 - (B) Unique country requirements are specified in the contract (i.e., additional documentation requirements for use in country customs clearance (Levy Exemption waiver));
 - (C) Commodity-unique requirements are specified in the contract (i.e., responsibility for obtaining/paying for/affixing active Radio Frequency Identification tags and Transportation Control Number construction/usage); and
 - (D) The FMS Transportation Accounting Code is stated in the contract.

PGI 225.7302 Preparation of Letter of Offer and Acceptance.

- (2) The contracting officer shall—

- (i) Assist the DoD implementing agency, as necessary, in preparation of the Letter of Offer and Acceptance;
- (ii) Identify and explain all unusual contractual requirements or requests for deviations; and
- (iii) Assist in preparing the price and availability data.

PGI 225.7303 Pricing acquisitions for FMS.

PGI 225.7303-2 Cost of doing business with a foreign government or an international organization.

(a)(3) *Offsets.*

(A) Offsets are the entire range of industrial and commercial benefits provided to foreign governments as an inducement or condition to purchase military supplies or services, including benefits such as coproduction, licensed production, subcontracting, technology transfer, in-country procurement, marketing and financial assistance, and joint ventures (Defense Offsets Disclosure Act of 1999, Pub. L. 106-113, section 1243(3)). There are two types of offsets: direct offsets and indirect offsets.

(i) A direct offset involves benefits, including supplies or services that are directly related to the item being purchased. For example, as a condition of a U.S. sale, the contractor may require or agree to permit the purchaser to produce in its country certain components or subsystems of the item being sold. Generally, direct offsets must be performed within a specified period because they are integral to the deliverable of the FMS contract.

(ii) An indirect offset involves benefits, including supplies or services that are unrelated to the item being purchased. For example, as a condition of a sale the contractor may agree to purchase certain of the customer's manufactured products, agricultural commodities, raw materials, or services. Indirect offsets may be accomplished without a clearly defined period of performance.

(B) Offset costs are the costs to the contractor of providing any direct or indirect offsets required (explicitly or implicitly) as a condition of purchase in a government-to-government sale of defense articles and/or defense services as defined by the Arms Export Control Act and the International Traffic in Arms Regulations.

(C) An offset agreement is the contractual arrangement between the FMS customer and the U.S. defense contractor that identifies the offset obligation imposed by the FMS customer that has been accepted by the U.S. defense contractor as a condition of the FMS customer's purchase. These agreements are distinct and independent of the LOA and the FMS contract. Further information about offsets and LOAs may be found in the Defense Security Cooperation Agency (DSCA) Security Assistance Management Manual (DSCA 5105.38-M), chapter 6, paragraph 6.3.9.

PGI 225.75 -BALANCE OF PAYMENTS PROGRAM

PGI 225.7502 Procedures.

If the Balance of Payments Program applies, use the following procedures:

(1) *Solicitation of offers.* Identify, in the solicitation, supplies and construction material known in advance to be exempt from the Balance of Payments Program.

(2) *Evaluation of offers.*

(i) *Supplies.* Unless the entire acquisition is exempt from the Balance of Payments Program, evaluate offers for supplies that are subject to the Balance of Payments Program using the evaluation procedures in DFARS Subpart 225.5. However, treatment of duty may differ when delivery is overseas.

(A) Duty may not be applicable to nonqualifying country offers.

(B) The U.S. Government cannot guarantee the exemption of duty for components or end products imported into foreign countries.

(C) Foreign governments may impose duties. Evaluate offers including such duties as offered.

(ii) *Construction.* Because the contracting officer evaluates the estimated cost of foreign and domestic construction material in accordance with DFARS 225.7501(a)(7)(iv) before issuing the solicitation, no special procedures are required for evaluation of construction offers.

(3) *Postaward.* For construction contracts, the procedures at FAR 25.206, for noncompliance under the Buy American statute, also apply to noncompliance under the Balance of Payments Program.

PGI 225.78 -ACQUISITIONS IN SUPPORT OF GEOGRAPHIC COMBATANT COMMANDS THEATER SECURITY COOPERATION EFFORTS

PGI 225.7801 Policy.

DoD components are responsible for providing procurement and contracting support of theater security cooperation efforts conducted in support of combatant commander/Chief of Mission, to include military exercises/training, base operations, weapons procurement, aviation fuels and construction and the President's Emergency Plan for Aids relief. By http://www.acq.osd.mil/dpap/dars/pgi/docs/policy_docs/Procurement_Support_of_Theater_Security_Cooperation_Efforts.pdf and its attachment, Department of State (DoS) Cable 11 STATE 030953, "Procurement Roles and Responsibilities - General Services Officer and DoD Personnel," DoS procurement support is normally restricted to those routine non-complex supplies and services used by U. S. Government personnel permanently assigned at post and acquired for U. S. Government employee direct use. PGI 225.79 - EXPORT CONTROL

PGI 225.7901 Export-controlled items.

PGI 225.7901-2 General.

(1) DoD Focal Point on Export Controls.

(i) Within DoD, the focal point on export controls is the Defense Technology Security Administration (DTSA). Official authorities and responsibilities of DTSA are established in DoD Directive 5105.72.

(ii) Initial DoD acquisition workforce questions regarding the applicability of the Export Administration Regulations (EAR) or the International Traffic in Arms Regulations (ITAR) to specific procurements or items, or interpretation of DoD issuances regarding export controls, may be directed to the DTSA Policy Directorate, by phone at 571-372-2438/2377 or by visiting the DTSA web site at: <http://www.dtsa.mil/SitePages/contact-us/default.aspx>.

(2) *Regulations.* The Department of State and the Department of Commerce are the lead agencies responsible for regulations governing the export of defense articles, commercial products or commercial services, and dual use items.

(i) *The International Traffic in Arms Regulations (ITAR)*, issued by the Department of State, control the export of defense-related articles and services, including technical data, ensuring compliance with the Arms Export Control Act (22 U.S.C. 2751 *et seq.*). The United States Munitions List (USML) identifies defense articles, services, and related technical data that are inherently military in character and could, if exported, jeopardize national security or foreign policy interests of the United States.

(A) The ITAR is published in Title 22 of the Code of Federal Regulations (CFR), Parts 120 through 130 (22 CFR 120-130). The official version of the ITAR is maintained at <http://www.gpoaccess.gov/cfr/index.html>. The Department of State also maintains an on-line version at http://www.pmddtc.state.gov/regulations_laws/itar_official.html.

(B) The USML is part of the ITAR, in 22 CFR Part 121, and is available at the web sites in paragraph (2) (i) (A) of this section.

(C) The Department of State is responsible for compliance with the ITAR. Depending on the nature of questions you may have, you may contact the following Department of State office to obtain additional information:

U.S. Department of State

Bureau of Political Military Affairs

Directorate of Defense Trade Controls

Office of Defense Trade Controls Compliance

http://www.pmddtc.state.gov/about/contact_information.html.

(D) Contracting officers should not answer any questions a contractor may ask regarding how to comply with the ITAR. If asked, the contracting officer should direct the contractor's attention to paragraph (c) of the clause at DFARS [252.225-7048](#) and may inform the contractor that the Department of State publishes guidance regarding ITAR compliance at <http://www.pmddtc.state.gov/compliance/index.html>.

(E) Contracting officers should not answer any questions a contractor may ask regarding the State Department requirement, mentioned in the clause at 252.225-7048, for contractors to register with the Department of State in accordance with the ITAR. If asked, the contracting officer should direct the contractor's attention to paragraph (b) of the clause, which directs the contractor to consult with the Department of State regarding any questions relating to compliance with the ITAR. (The registration requirements are in Subpart 122.1 of the ITAR. Subpart 122.1 requires any person who engages in the United States in the business of either manufacturing or exporting defense articles or furnishing defense services to register with the Directorate of Defense Trade Controls.)

(ii) *The Export Administration Regulations (EAR)*, issued by the Department of Commerce, control the export of dual-use items, (items that have both commercial and military or proliferation applications) and purely commercial products or commercial services. These items include commodities, software, and technology. Many items subject to the EAR are set forth by Export Control Classification Number on the Commerce Control List.

(A) The EAR is published in Title 15 of the Code of Federal Regulations, Parts 730 through 774 (15 CFR Parts 730-774), available at <http://www.gpoaccess.gov/cfr/index.html> and http://www.access.gpo.gov/bis/ear/ear_data.html.

(B) The Commerce Control List is part of the EAR, in Supplement No. 1 to 15 CFR Part 774, and is available at <http://www.gpoaccess.gov/cfr/index.html> and http://www.access.gpo.gov/bis/ear/ear_data.html.

(C) The Department of Commerce is responsible for compliance with the EAR. Depending on the nature of questions you may have, you may contact the following Department of Commerce office to obtain additional information:

U.S. Department of Commerce

Bureau of Industry and Security

Office of Exporter Services (OExS)

OExS Hotline: 202-482-4811.

(D) Contracting officers should not answer any questions a contractor may ask regarding how to comply with the EAR. If asked, the contracting officer should direct the contractor's attention to paragraph (b) of the clause at DFARS 252.225-7048 and may inform the contractor that the Department of Commerce publishes guidance regarding EAR compliance at <http://www.bis.doc.gov/>.

(3) *National Security Decision Directive (NSDD) 189, National Policy on the Transfer of Scientific, Technical, and Engineering Information.*

(i) NSDD 189 establishes a national policy that, to the maximum extent possible, the products of fundamental research shall remain unrestricted. NSDD 189 provides that no restrictions may be placed upon the conduct or reporting of federally funded fundamental research that has not received national security classification, except as provided in applicable U.S. statutes. As a result, contracts confined to the performance of unclassified fundamental research generally do not involve any export-controlled items, as defined in paragraph (a) of the clause at DFARS 252.225-7048.

(ii) NSDD 189 does not take precedence over statutes. NSDD 189 does not exempt any research, whether basic, fundamental, or applied, from statutes that apply to export controls such as the Arms Export Control Act, the Export Administration Act of 1979, as amended, or the U.S. International

Emergency Economic Powers Act, or the regulations that implement those statutes (the ITAR and the EAR). Thus, if export-controlled items are used to conduct research or are generated as part of the research efforts, the export control laws and regulations apply to the controlled items.

(iii) NSDD 189 is available at <http://www.fas.org/irp/offdocs/nsdd/nsdd-189.htm>.

PGI 225.7902 Defense Trade Cooperation Treaties.

The following documents are accessible at: <http://pmdtdc.state.gov/>:

- DTC Treaties.
- Implementing Arrangements.
- The provisions of the International Traffic in Arms Regulations (ITAR) (22 CFR 126.16 (Australia) and 22 CFR 126.17 (United Kingdom)) pertaining to the DTC Treaties.
- List of Defense Articles Exempted from DTC Treaty Coverage (also in 22 CFR 126 Supplement No. 1).
- List of Approved Community Members.
- Definitions.

PGI 225.7902-2 Purpose.

(1) Background.

(i) The U.S. Government controls exports of defense articles, technical data, and defense services. The controls are imposed by the Arms Export Control Act (AECA) and the Department of State regulation that implements the AECA export controls. That regulation is the ITAR. See PGI [204.7302\(2\)\(i\)](#) for more information about the ITAR.

(ii) Under the ITAR, the Department of State manages an export licensing system in which government approvals are often necessary for companies to hold discussions about potential projects, pursue joint activities, ship hardware, or transfer know-how to one another, and even sometimes to move engineers and other personnel within branches of the same company located in different countries. This process can be challenging for U.S. exporters and for foreign firms in their supply chains.

(iii) Given the close allied relationship of the United States with Australia and the United Kingdom, the President and the respective Prime Ministers decided to reform the defense trade system between their countries with the goal of facilitating the exchange of certain defense articles, technical data, and defense services between their militaries and security authorities, and their industries. They negotiated bilateral Defense Trade Cooperation DTC Treaties to achieve this goal. These bilateral DTC Treaties establish permissions for export without export licenses for each country, if an export meets the DTC Treaty requirements.

Other exports remain under the AECA and the ITAR. The DTC Treaties are intended solely to waive certain requirements of the ITAR for specific transactions within the scope of the DTC Treaties not remove any requirements for contractors to comply with domestic U.S. law.

(iv) The Department of State regulations implementing the DTC Treaties are in the ITAR.

(2) How the DTC Treaties work.

(i) The DTC Treaties establish Approved Communities. The “Approved Community” for each DTC Treaty is defined in DFARS clause [252.225-7047](#). Exports of most U.S. defense articles, technical data, and defense services are permitted to go into and to move within the Approved Community, without the need for government approvals and export licenses (provided that all persons comply with statutory and regulatory requirements outside of DFARS and ITAR concerning the import of

defense articles and defense services or the possession or transfer of defense articles, including, but not limited to, regulations issued by the Bureau of Alcohol, Tobacco, Firearms and Explosives found at 27 C.F.R. Parts 447, 478, and 479, which are unaffected by the DTC Treaties) when in support of the following:

- Combined U.S.-Australia or U.S.-U.K. military or counterterrorism operations.
- U.S.-Australia or U.S.-U.K. cooperative security and defense research, development, production, and support programs.
- Specific security and defense projects that are for the government of Australia or the government of the United Kingdom use only.
- U.S. Government end use.

(ii) Under the DTC Treaties, instead of a U.S. exporter preparing and requesting Department of State approval of an export license or other written authorization for a project, the exporter may elect to use the applicable DTC Treaty if Treaty conditions are met. If using a DTC Treaty, the exporter will check the Department of State website (<http://pmddtc.state.gov/>) or other appropriate reference and verify that—

- The Australian or U.K. partner is on the list of approved companies/facilities (i.e., a member of the Approved Community);
- The effort is in support of at least one of the scope areas identified in paragraph (2)(i) of this section; and
- The defense article is not on the exempted technology list. (Also in 22 CFR 126 Supplement No. 1).

If all three conditions are met, then the U.S. exporter and the Australian or U.K. partner may use the DTC Treaty exemptions in the ITAR to move qualifying defense articles without the need to obtain export licenses or other written authorizations, provided compliance with paragraph (2)(i) of this section.

(iii) A company using a DTC Treaty, in addition to checking the three lists (as explained in paragraph (2)(ii) of this section), must also comply with requirements in the applicable DTC Treaty and the associated Implementing Arrangements, and the provisions of the ITAR pertaining to the DTC Treaty. These include marking and record keeping requirements to ensure that export-controlled items are recognized as such and treated accordingly. For example, instead of normal ITAR requirements, the provisions of the ITAR pertaining to the DTC Treaties establish the requirements that apply. Similarly, DFARS [225.7902](#) implements requirements that relate to exports that a prospective contractor may make under a DoD solicitation or that a contractor may make in performance of a DoD contract.

The company must continue to comply with domestic laws and regulations, including those pertaining to the movement of defense articles within the United States.

PGI 225.7902-4 Procedures.

(1) Since the DTC Treaties apply only to eligible items, a solicitation or contract falls within the scope of the DTC Treaties, and is thus eligible for DTC Treaty coverage (i.e., falls within the scope of

the DTC Treaties) if it will acquire at least one defense article that is not otherwise exempt from the DTC Treaties and is required for—

- (i) Combined military or counterterrorism operations as described in the Implementing Arrangements;
- (ii) Cooperative security and defense research, development, production, and support programs that are identified pursuant to the Implementing Arrangements;
- (iii) Cases where the government or Australia or the government of the United Kingdom is the end user in mutually agreed specific security and defense projects, that are identified pursuant to the Implementing Arrangements; or
- (iv) U.S. Government end use under a solicitation or contract.

(2) Since the DTC Treaties apply only to eligible items, a solicitation or contract falls within the scope of the DTC Treaties and is thus eligible for DTC Treaty coverage when it will acquire at least one defense article that is DTC Treaty-eligible and the contract falls within the scope of the DTC Treaties. Article 3, section (2) of each DTC Treaty and Section 4 of each Implementing Arrangement require the DTC Treaty Participants to maintain lists of defense articles to be exempted from the scope of the DTC Treaties. These exempted technology lists are incorporated in Supplement No. 1 to part of the ITAR and are accessible at: <http://www.pmddtc.state.gov/treaties/index.html>

(3) The DTC Treaties do not apply to defense articles initially being acquired pursuant to the U.S. Foreign Military Sales (FMS) program, although, once the defense articles are acquired by the Australia or United Kingdom under an FMS case, the DTC Treaty applies as though the defense articles were exported under the DTC Treaty, subject to PGI [225.7902-2](#) .

(4) If a company obtains an export license, or other authorization, for the export of defense articles that might otherwise have been eligible for export without a license under a DTC Treaty, the terms of the export license, or other authorization, shall apply unless and until the company obtains approval to transition to DTC Treaty coverage. The process and requirements for transition are described in 22 CFR 126.16(i) and 22 CFR 126.17(i), respectively.
