- (b)  $USDA\ BioPreferred\ \ensuremath{\mathbb{R}}\ Program$ . The BioPreferred Program was created in the 2002 Farm Bill and is managed by the USDA. The goal of the BioPreferred Program is to increase the purchase and use of biobased products (as defined in 2.101) by agencies.
- (c) Applicability.
- (1) This section applies to *contract actions* involving a *biobased product* in a *USDA*-designated product category if—
- (i) The price of the biobased product exceeds \$10,000; or
- (ii) The aggregate amount paid for multiple purchases of the *biobased product*, or for a functionally equivalent product, in the preceding fiscal year was \$10,000 or more.
- (2) While micro-purchases are included in determining the aggregate amount paid under paragraph (c)(1) of this section, it is not necessary for an agency to track micro-purchases when—
- (i) The agency anticipates the aggregate amount paid will exceed \$10,000; or
- (ii)The agency intends to establish or continue an affirmative *procurement* program in the following fiscal year.
- (d) Agency affirmative procurement program. An agency shall establish an affirmative procurement program for biobased products in USDA-designated product categories if the agency's purchases of such products exceed the threshold set forth in paragraph (c)(1) of this section.
- (1) Agency affirmative procurement programs must include—

- (ii) A program to promote the biobased products preference program;
- (iii) A program for requiring preaward certification that *products* meet *USDA* recommendations (see <u>52.223-1</u>, *Biobased Product* Certification) and reporting on *biobased products* used in performance of contracts (see <u>52.223-2</u>, Reporting of *Biobased Products* Under Service and *Construction* Contracts); and
- (iv) Annual review and monitoring of the effectiveness of the program.
- (2) Technical or requirements personnel and *procurement* personnel are responsible for the preparation, implementation, and monitoring of affirmative *procurement* programs.

- (3) Agencies have a period of 1 year to revise their *procurement* program(s) after *USDA* updates any *USDA*-designated product categories.
- (e) *Procedures*. The following procedures apply when the thresholds set forth in paragraph (c)(1) of this section are exceeded.
- (1) Once a *biobased product* is included in a *USDA*-designated product category, agencies *shall* purchase conforming *products* to the maximum extent practicable in accordance with  $\underline{23.104}$ (a), unless a justification, exception, or exemption applies (see  $\underline{23.104}$ (a),  $\underline{23.105}$ , and  $\underline{23.106}$ , respectively).
- (2) Agencies may use their own specifications or commercial product descriptions when procuring biobased products; however, the contract should specify that the biobased product is composed of the—
- (i) Highest percentage of biobased material practicable; or
- (ii) USDA's recommended minimum contents standards.
- (3) When acquiring *biobased products*, the *contracting officer may* request information or data on such *products*, including biobased content or related standards of the *products* (see 11.301(c)).
- (4) Agencies *shall* treat as eligible for the preference for *biobased products*, *products* from designated countries, as defined in <u>25.003</u>, provided that those *products*—
- (i) Meet the criteria for the definition of *biobased product*, except that the *products* need not meet the requirement that renewable agricultural materials or forestry materials in such product *must* be domestic; and
- (ii) Otherwise meet all requirements for participation in the preference program.
- (f) Resources.
- (1) For information on *USDA*-designated product categories and minimum content standards for *biobased products*, see <u>https://www.biopreferred.gov</u>.
