915.404-4750 Special considerations—contracts with nonprofit organizations (other than educational institutions).

(a) For purposes of identification, nonprofit organizations are defined as those business entities organized and operated exclusively for charitable, scientific, or educational purposes, of which no part of the net earnings inure to the benefit of any private shareholder or individual, of which no substantial part of the activities is attempting to influence legislation or participating in any political campaign on behalf of any candidate for public office, and which are exempt from Federal income taxation under section 501 of the Internal Revenue Code.

(b) In computing the amount of profit or fee to be paid, the DOE negotiating official shall take into account the tax benefits received by a nonprofit organization. While it is difficult to establish the degree to which a remuneration under any given contract contributes to an organization's overall net profit, the DOE negotiating official should assume that there is an element of profit in any amount to be paid.

(c) In order to assure consideration of the tax posture of nonprofit organizations during a profit or fee negotiation, the DOE negotiating official shall calculate the fee as for a contract with a commercial concern and then reduce it at least 25 percent. However, depending on the circumstances, the contracting officer may pay profit or fees somewhere between this amount and the appropriate profit or fee as if it were a commercial concern. When this is the case, the contract file shall be documented to specifically state the reason or reasons.

(d) Where a contract with a nonprofit organization is for the operation of Government-owned facilities, the fee should be calculated using the procedures and schedules applicable to operating contracts as set forth in part 970.
