Subpart 923.4—Contractor Compliance With Environmental Management Systems

Parent topic: PART 923—ENVIRONMENT, SUSTAINABLE ACQUISITION, AND MATERIAL SAFETY

923.404 Contract clause.

The FAR Environmental Management Systems clause at 52.223-19should be used in contracts where the contractor operates a DOE site or portion thereof. Some DOE sites have a single Environmental Management System for the site while others have separate Environmental Management Systems for various portions of the site which may be operated by different contractors. Check with local environmental management personnel regarding the applicability of the FAR 52.223-XX clause to a specific contract.
