Configuration Control

<Consult AR 700-127, Integrated Product Support, and DA PAM 700-127, Integrated Product Support Procedures >

Section L

The offeror’s proposal shall describe the configuration control board processes that enable the Government to identify, adjudicate, prioritize, and resolve issues/discrepancy reports and major critical defects related to procured software, hardware, firmware, and/or a combination thereof, as detailed in requirements and technical documentation in a timely manner <replace with more specific language as needed> and ultimately achieves a product that impacts acceptable mission functionality. <If applicable, address requirements for maintenance of the Technical Data Package (TDP) and Engineering Change Proposals (ECPs).>

Section M

The Government will evaluate the proposal for how and the extent to which the offeror will ensure the Government’s ability to identify, adjudicate, and prioritize issues/discrepancy reports for resolution in a timely fashion. This includes scope for shared roles and responsibilities in support of the test/certification and deployment release process/capability.
