# PART 7 -- ACQUISITION PLANNING

## SUBPART 7.1 -- ACQUISITION PLANS

### **7.101 Definitions.**

Component Acquisition Executive (CAE). The CAE has oversight and review authority for all acquisition matters and reports to the Director, DISA. The CAE has the authority and is accountable for all acquisition functions and activities in the Agency. (Source: DISAI 610-225-

2\*)

Procurement Services Executive (PSE). Serves as the HCA for Agency procurements.

DISA Mission Partner. Internal DISA program office (i.e., requirements office).

DISA Program/Project. A DISA funded logical grouping of requirements designed to provide a new, improved, or continuing capability in response to a validated operational capability.

DISA Program Plan. A budgetary plan of requirements supporting a specific DISA Program for any given fiscal year (FY). The Annual Program Plan Review is the forum for obtaining program plan approval.

High-Risk Contracts/CLINs. High-risk contracts include non-competitive or limited competition contracts and cost reimbursement and time-and-materials/labor-hour contracts. High-Risk CLINs are cost reimbursement and time-and-materials/labor-hour types. When a combination of types is used (sometimes referred to as a "hybrid"), the contract is considered high-risk if the high-risk CLINs constitute 50% or more of the total estimated cost. The definition of high-risk does not include directed 8(a) contracts.

Integrated Product Team (IPT). A cross-functional team formed for the specific purpose of delivering a capability for an external or internal mission partner.

Independent Government Cost Estimate (IGCE). The IGCE is a required evaluation tool in DISA source selections. As such its integrity is critical, and the PMO shall be responsible for ensuring that appropriate technical and cost and price analysts are involved in its development.

Non-DISA Mission Partner. An external program office (i.e., requirements office), such as other DoD Components and other Federal Agencies.

Program Executive Officer (PEO). A PEO is appointed by the CAE to manage portfolios of programs, projects, initiatives, and services. (Source: DISAI 610-225-2\*)

Program Manager (PM) or Program Management Office (PMO). The designated person (i.e., requirements official) or office who is responsible for developing and maintaining a written plan, or for the planning function in those acquisitions not requiring a written plan.

Decision Authority (DA). A DA is an official designated by the CAE to manage portfolios of programs, projects, and services.

### **7.103 Agency-head responsibilities.**

(S-90) A written plan (combined AS/AP, standard, or streamlined) shall also be prepared for:

(See Table 7-1 for thresholds and approval authority)

(1) Acquisitions with a total value, including options, of \$50M and above.

(2) All Fixed Price sole source (non-competitive) contracts, including brand name, of \$50M and above. However, below \$50M, the contracting officer shall document in writing in the contract file their consideration, at a minimum, the following prior to releasing the solicitation:

(ii) giving consideration to all small business types; and

(iii) mitigating the risk for noncompetitive contracts, i.e., ensure price reasonableness, remove the barriers for noncompetition.

(3) Cost Reimbursement, Time-and-Materials, and Labor Hour Contracts, regardless of the total estimated cost.

(4) Combination of Contract Types, also known as a hybrid contract, include Cost Reimbursement, Time-and-Materials, and Labor Hour Contract Line Items that constitute 50% or more of the estimated value.

(S-91) Contract actions which serve to provide a “bridge” of an incumbent contractor’s performance between an expiring contract/order and a follow-on competitive or non-competitive contract/order, which have a period of performance of 12 months or less, do not require a new written AP. However, the approved AP shall be amended as appropriate.
