The use of NASA contracts that are available for use by other Centers allows NASA to obtain favorable terms and pricing for supplies and services as described in the Office of Procurement Strategic Sourcing Website.

1808.003-7202 Purchase request.

Prior to submitting a purchase request, the requiring activity shall review the existing NASA contracts that available for use by other Centers as identified on the Office of Procurement Strategic Sourcing Searchable Repository to determine if the requirement is available through the NASA Strategic Sourcing Initiative.

Kingman Rd., #3339, Ft. Belvoir, VA 22060-6223. DLA will furnish the current fair market value to NASA. The unit of issue is a 76-pound flask.

(b) Requests for clearance to purchase quantities of 76 pounds or more from sources other than DLA shall be submitted to the office in paragraph (a) of this section and must be accompanied by a statement of reasons why the available excess mercury is unsuitable for use by the requesting field installation.

See PIC 18-01F for further guidance.
(a)(1)(A) For requirements for supplies or services that cannot be satisfied from the mandatory sources listed at FAR 8.002 and 8.003, the contracting officer shall satisfy such requirements through the enterprise procurement strategies identified in Appendix A.

(B) For situations (e.g., immediacy of need, availability of better pricing elsewhere, etc.) that do not warrant the use of the contracts determined as mandatory in 1808.004(a)(1)(A), the contracting officer shall prepare and submit a request for deviation for approval by the Senior Procurement Executive in accordance with 1801.471.

(C) For NASA contracts that are not identified as mandatory but identified as available for use by other Centers on the Office of Procurement Strategic Sourcing Searchable Repository, the contracting officer should use these NASA contracts to obtain favorable terms and pricing for supplies and services and to support NASA’s strategic sourcing goals.
