The tenets of the DoD-wide architecture for the acquisition of services along with the associated review criteria are available here. These matrices are to be used when conducting reviews in the preaward phase (Review/Approval of Acquisition Strategies or Preaward Peer Reviews) and in the postaward phase (Postaward Peer Reviews). PGI 237.102-77 Acquisition requirements roadmap tool.

The Acquisition Requirements Roadmap Tool (ARRT) is a tool that enables requiring activities to develop and organize performance requirements into draft versions of the performance work statement, the quality assurance surveillance plan, and the performance requirements summary. ARRT provides a standard template for these documents and some default text that can be modified to reflect a particular requirement. This tool should be used to prepare these documents for all performance-based acquisitions for services. ARRT is available for download at https://www.dau.edu/tools/Documents/SAM/resources/ARRT_Home.html.

PGI 237.172 Service contracts surveillance.

The contracting officer shall remind requirements personnel, when they are preparing the quality assurance surveillance plan for contracts, to include a requirement for surveillance of the contractor’s implementation of the clause at FAR 52.222-50, Combating Trafficking in Persons (see PGI 222.1703).

PGI 237.2 –ADVISORY AND ASSISTANCE SERVICES

PGI 237.270 Acquisition of audit services.

The following DoD publications govern the conduct of audits:

(1) DoDI 7600.2, Audit Policies - Provides DoD audit policies.
PGI 237.5 MANAGEMENT OVERSIGHT OF SERVICE CONTRACTS

PGI 237.503 Agency-head responsibilities.

(c) To comply with the certification requirement at DFARS 237.503, complete a certification substantially the same as the following and include a copy in the contract file:

Certification of Nonpersonal Services

This certification and enclosed worksheet is designed to ensure that the agency does not award a personal-services contract unless specifically authorized by statute (e.g., 10 U.S.C. 129b, 5 U.S.C. 3109, or 10 U.S.C. 1091). Therefore, this documentation should be completed in conjunction with the submission of a service-contract requirement to the contracting officer.

A personal services contract is characterized by the employer-employee relationship it creates between the Government and the contractor’s personnel. The Government is normally required to obtain its employees by direct hire under competitive appointment procedures required by civil service laws. Obtaining personal services by contract, rather than by direct hire, circumvents those laws unless Congress has specifically authorized acquisition of the services by contract.

An employer-employee relationship under a service contract occurs when the Government exercises relatively continuous supervision and control over contractor personnel performing the contract.

Upon considering the information above and the worksheet below, I certify that this requirement does not include an unauthorized personal services arrangement, either in the way the work statement is written or in the manner in which the resulting contract will be managed and overseen.

______________________________

Printed Name, Grade, Title, and Date

Personal Services (The following descriptive elements from FAR 37.104 should be used as a guide to assess whether or not a proposed contract is personal in nature. If the answer to any of the items below is YES, then additional measures should be taken to ensure the contract is not administered so as to create an employer-employee relationship between the Government and the contractor’s personnel and result in an unauthorized personal services contract.)

YES NO

1. Contractor personnel are performing on a Government site.

2. Principal tools and equipment are furnished by the Government.
3. Services are applied directly to the integral effort of the agency or an organizational subpart in furtherance of assigned function or mission.

4. Comparable services meeting comparable needs are performed in this agency or similar agencies using civil-service personnel.

5. The need for the service provided can reasonably be expected to last beyond one year.

6. The inherent nature of the service, or the manner in which it is to be provided, reasonably requires (directly or indirectly) Government direction or supervision of contractor employees in order to: (a) adequately protect the Government’s interest; (b) retain control of the function involved; or (c) retain full personal responsibility for the function supported in a duly authorized Federal officer or employee.

PGI 237.70 —MORTUARY SERVICES

PGI 237.7002 AREA OF PERFORMANCE AND DISTRIBUTION OF CONTRACTS.

(1) Determine and define the geographical area to be covered by the contract using the following general guidelines:

   (i) Use political boundaries, streets, or other features as demarcation lines.

   (ii) The size should be roughly equivalent to the contiguous metropolitan or municipal area enlarged to include the activities served.

   (iii) If the area of performance best suited to the needs of a particular contract is not large enough to include a carrier terminal commonly used by people within the area, the contract area of performance shall specifically state that it includes the terminal as a pickup or delivery point.

(2) In addition to normal contract distribution, send three copies of each contract to each activity authorized to use the contract, and two copies to each of the following:

   (i) HQDA (TAPC-PEC-D), Alexandria, VA 22331.

   (ii) Commander, Naval Medical Command, Department of the Navy (MED 3141), 23rd and E Streets NW, Washington, DC 20372.

   (iii) Headquarters, AFMPC-MPCCM.
