Brand Name or Equal (NOV 1996)

(As used in this provision, the term “brand name” includes identification of products by make and model.)

(a) If items called for by this solicitation have been identified by a “brand name or equal” description, such identification is intended to be descriptive, but not restrictive, and is to indicate the quality and characteristics of products that will be satisfactory. Offers of “equal” products (including products of the brand name manufacturer other than the one described by brand name) will be considered for award if such products are clearly identified in the offer (see clause 452.211-71) and are determined by the Contracting Officer to meet fully the salient characteristics requirements listed in the solicitation.

(c)

(1) If the offeror proposes to furnish an “equal” product or products, the brand name(s), if any, and any other required information about the product(s) to be furnished shall be inserted in the space provided in the solicitation. The evaluation of offers and the determination as to the equality of the product(s) offered shall be the responsibility of the Government and will be based on information furnished by the offeror or identified in its offer as well as other information reasonably available to the contracting activity. Caution to offerors: The contracting activity is not responsible for locating or securing any information which is not identified in the offer and is not reasonably available to the contracting activity. Accordingly, to assure that sufficient information is available, the offeror must furnish as a part of its offer all descriptive material (such as cuts, illustrations, drawings, or other information) necessary for the contracting activity to (i) determine whether the product offered meets the salient characteristics requirement of the solicitation, and (ii) establish exactly what the offeror proposes to furnish and what the Government would be binding itself to purchase by making an award. The information furnished may include specific reference to information previously furnished or to information otherwise available to the contracting activity.

(2) If an offeror proposes to modify a product so as to make it conform to the requirements of the solicitation, the offer shall include

(i) a clear description of such proposed modifications and (ii) clearly marked descriptive material to show the proposed modifications.

If addition of another bid item in the listed order of priority would make the award exceed such funds for all bidders, it shall be skipped and the next subsequent additive bid item in a lower amount shall be added if award therein can be made within such funds. For example, when the amount available is \$100,000 and a bidder's base bid and four successive additives are \$85,000, \$10,000, \$8,000, \$6,000, and \$4,000, the aggregate amount of the bid for purposes of award would be \$99,000 for the base bid plus the first and fourth additives, the second and third additives being skipped because of each of them would cause the aggregate bid to exceed \$100,000. In any case all bids shall be evaluated on the basis of the same additive or deductive bid items, determined as above provided. The listed order of priority need be followed only for determining the low bidder. After determination of the low bidder as stated, award in the best interests of the Government may be made on the selected first or base bid item and any combination of additive or deductive items for which funds are determined to be available at the time of the award, provided that award on such combination of bid items does not exceed the amount offered by any other conforming responsible bidder for the same combination of bid items.
