

7.107-4 Substantial bundling.

(a)

(1) Substantial bundling is any bundling that results in a contract or task or delivery order with an estimated value of—

(i) \$8 million or more for the Department of Defense;

(ii) \$6 million or more for the National Aeronautics and Space Administration, the General Services Administration, and the Department of Energy; or

(iii) \$2.5 million or more for all other agencies.

(2) These thresholds apply to the cumulative estimated dollar value (including options) of—

(i) Multiple-award contracts;

(ii) Task orders or delivery orders issued against a GSA Schedule contract; or

(iii) Task orders or delivery orders issued against a task-order or delivery-order contract awarded by another agency.

(b) In addition to addressing the requirements for bundling (see [7.107-3](#)), when the proposed acquisition strategy involves substantial bundling, the agency shall document in its strategy—

(1) The specific benefits anticipated to be derived from substantial bundling;

(2) An assessment of the specific impediments to participation by small business concerns as contractors that result from substantial bundling;

(3) Actions designed to maximize small business participation as contractors, including provisions that encourage small business teaming;

(4) Actions designed to maximize small business participation as subcontractors (including suppliers) at any tier under the contract, or order, that may be awarded to meet the requirements;

(5) The determination that the anticipated benefits of the proposed bundled contract or order justify its use; and

(6) Alternative strategies that would reduce or minimize the scope of the bundling, and the rationale for not choosing those alternatives.
