(a) *National Response Framework*. The National Response Framework (NRF) is a guide to how the Nation conducts all-hazards response. This key document establishes a comprehensive, national, all-hazards approach to domestic incident response. The Framework identifies the key response principles, roles and structures that organize national response. It describes how communities, States, the Federal Government, the private-sector, and nongovernmental partners apply these principles for a coordinated, effective national response. It also describes special circumstances where the Federal Government exercises a larger role, including incidents where Federal interests are involved and catastrophic incidents where a State would require significant support. The NRF is available at <https://www.fema.gov/media-library/assets/documents/117791>.
