“Enterprise software agreement” means an agreement or a contract that is used to acquire designated commercial software or related services such as software maintenance.

“Enterprise Software Initiative” means an initiative led by the DoD Chief Information Officer to develop processes for DoD-wide software asset management.

“Software maintenance” means services normally provided by a software company as standard services at established catalog or market prices, e.g., the right to receive and use upgraded versions of software, updates, and revisions.

208.7402 General.

Departments and agencies shall fulfill requirements for commercial software and related services, such as software maintenance, in accordance with the DoD Enterprise Software Initiative (ESI) (see website at <http://www.esi.mil/>). ESI promotes the use of enterprise software agreements (ESAs) with contractors that allow DoD to obtain favorable terms and pricing for commercial software and related services. ESI does not dictate the products or services to be acquired.
