DATE: May 11, 2026

SUBJECT: FAR Class Deviation for FAR Part 11 in Support of Executive Order (EO) 14275 on Restoring Common Sense to Federal Procurement.

1. Purpose. This memorandum approves a class deviation to Federal Acquisition Regulation (FAR) part 11 for purposes of implementing the FAR Council's model deviation to FAR part 11 available at <https://www.acquisition.gov/far-overhaul/farpart-deviation-guide/far-overhaul-part-11>.

2. Background. On April 15, 2025, Executive Order (EO) 14275 on Restoring Common Sense to Federal Procurement was signed by the President. Section 2 of the EO establishes the policy that the FAR "should only contain provisions required by statute or essential to sound procurement, and any FAR provisions that do not advance these objectives should be removed."

The FAR is being updated to:

- Remove language that is not required by statute.
- Remove duplicative or outdated language.
- Clarify or provide more plain language.
- Revise language for the new FAR framework.
- Retain language necessary for governmentwide acquisition standards.

This project is referred to as the Revolutionary FAR Overhaul (RFO) initiative. This initiative will make the FAR more concise, understandable, and focused on core procurement requirements.

3. Summary of Changes. FAR part 11, Describing Agency Needs, has been updated to ensure requirements are clear, focused on commercial standards, and do not unnecessarily limit competition.

Statutory requirements retained in the RFO FAR part 11 deviation include, but are not limited to, the following:

- 41 U.S.C. § 3306(a) and 10 U.S.C. § 3206(a): Planning and Solicitation Requirements
- 41 U.S.C. § 3307 and 10 U.S.C. § 3453: Preference for Commercial Products and Commercial Services
- 15 U.S.C. § 637(d)(4)(F): Requirements related to liquidated damages

- Definitions specific to part 11 for Reconditioned and Remanufactured.
- Using market research to promote full and open competition.

- Requirements related to identification and availability of specifications.
- Prescriptive procedures, such as:
 - Requirements to include ecolabels in specifications based on information in the Green Procurement Compilation.
 - Requirements for brand name or equal purchase descriptions.
- Twelve (12) clauses and provisions are removed:
 - The following provisions related to the availability of Federal specifications, applicable to GSA and DOD standard indices:
 - 52.211-1, Availability of Specifications Listed in the GSA Index of Federal Specifications, Standards and Commercial Item Descriptions, FPMR Part 101-29

4. Instructions. The FCC acquisition workforce shall:

- Follow the RFO part 11 model deviation text instead of FAR part 11 as codified at 48 CFR chapter 1. The Council’s RFO part 11 model deviation text is available at Acquisition.gov, under the “FAR Overhaul” link, and is incorporated into this class deviation.
- Do not include any of the removed provisions or clauses in future solicitations and contracts. For open solicitations or awarded contracts, the contracting officer has discretion regarding the need to enforce or amend the provisions or clauses. Note that without some of the removed provisions or clauses, the contracting officer may be required to separately address certain aspects in the contract.
 - For example, without contract clauses addressing variations from firm-fixed price contracts, contracting officers should consider other ways to protect the Government by addressing variations during the contract’s performance.
- Requirements for establishing delivery or performance schedules are being moved to the FAR Companion Guide. This move allows acquisition teams greater flexibility and discretion to consider techniques which are most appropriate to their acquisition. To enforce the remaining liquidated damages clauses, it is helpful to ensure a delivery schedule is clearly identified.
- Review templates and related standard operating procedures to align with this deviation and remove unnecessary processes or steps

5. Applicability. This class deviation applies to all FCC procurements.

6. Authority. This class deviation is issued under the authority of EO 14275, OMB memorandum M- 25-26, 48 CFR 1.4, and RFO FAR 1.304.

7. Effective Date. This class deviation is effective as dated and shall remain in effect until it is incorporated into the FAR or until this class deviation is otherwise rescinded.
