FCC Class Deviation RFO-2026-08 – Supplement 1

TO: FCC Enterprise Acquisition Center

FROM: Sunny Diemert, Senior Procurement Executive

DATE: May 8, 2026

SUBJECT: Supplement to Certain FCC Implementing Deviations in Support of Executive Order 14275, Restoring Common Sense to Federal Procurement.

1. Purpose: This supplement provides updates and amendments to certain FCC implementing deviations.

2. Background: In accordance with Executive Order (E.O.) 14275 on Restoring Common Sense to Federal Procurement between May and September 2025, the FAR Council issued model deviation text by FAR part in support of the Revolutionary FAR Overhaul (RFO) initiative. This initiative is intended to make the FAR more concise, understandable, and focused on core procurement requirements.

In accordance with OMB Memorandum M-25-26, FCC issued implementing class deviations following release of each RFO FAR part deviation text. More information about the purpose of the RFO initiative and background on individual model deviation language can be found in the original FCC implementing deviation for each part.

Subsequent review has identified the need to update and amend FCC’s implementing deviations for RFO FAR parts 5, 8, 9, 12, 13, and 23. The specific changes and rationale are discussed below.

3. Summary of Supplement Updates

RFO FAR parts 5, 12, 13, and 23	
Background	RFO FAR parts 5, 12, 13, and 23 included corresponding definition updates to part 2, but the implementing FCC deviations did not provide instructions to the workforce on how to use the revised part 2 definitions in concert with existing definitions in part 2.
Supplement Update	In FCC’s class deviations implementing RFO FAR parts 5, 12, 13, and 23, section 4, “Instructions”, is updated to add the following bullet: <ul style="list-style-type: none"> The FCC acquisition workforce must use the definitions (Part 2 - Deviations of Words and Terms) found on Acquisition.gov/far-overhaul. <p>The remainder of the deviation is unchanged.</p>

found in FAR subpart 8.4. FSS ordering procedures have been revised to create a streamlined structure that provides only the essential requirements needed to place orders and establish blanket purchase agreements (BPAs) against FSS contracts. This streamlined structure enhances the speed of acquisition, and empowers acquisition professionals to use innovative approaches to acquire products/services/solutions under the FSS program.

Statutory requirements retained in the RFO FAR part 8 model deviation include, but are not limited to, the following:

- 10 U.S.C. § 3905, Products of Federal Prison Industries
- 18 U.S.C. § 4124, Purchase of Prison-Made Products by Federal Departments
- 40 U.S.C. § 501, Services for Executive Agencies
- 41 U.S.C. § 152(3), Competitive Procedures
- 41 U.S.C. § 3302, Requirements for Purchase of Property and Services Pursuant to Multiple Award Contracts
- 41 U.S.C. §§ 8501 et seq, Committee for Purchase from People Who are Blind or Severely Disabled
- 44 U.S.C. §§ 501 et seq, Production and Procurement of Printing and Binding
- Pub. L. 108-136, Title XIV, Services Acquisition Reform Act of 2003

Change	Description
Retained	<ul style="list-style-type: none"> • The substance of the “Scope” in 8.000 is retained. • Many definitions, previously scattered across different subparts of part 8, are now consolidated at new section 8.001. • Use of Mandatory Sources. The priorities and requirements for use of mandatory sources are moved from 8.002 to new sections 8.102, and 8.103. Former section 8.003, “Use of Other Mandatory Sources”, is deleted, but its content is preserved and merged into the new section 8.101. • Use of Existing Contracts. 8.104 replaces section 8.004, “Use of Other Sources”. Best-in-class (BIC) contracts or BPAs are now required to be used when a commercial product or commercial service meets an agency’s need, unless approved by the Head of the Contracting Activity (HCA). If a BIC is not suitable, agencies should consider use of an existing governmentwide contract, BPA, or shared service. • Contractor permitted use of Government supply sources. This new content moves from FAR part 51 to the new section at 8.105. A new clause is prescribed in section 8.105-1 and discussed below. • Contractor Use of GSA Fleet. Former subpart 8.11, “Leasing of Motor Vehicles”, is deleted but guidance for authorizing contractor use of GSA Fleet is preserved and moved to section 8.105-3. • Ordering under the Federal Supply Schedule. This new subpart 8.4 directs agencies to follow the ordering procedures established by GSA found at General Services Acquisition Regulation (GSAR) part 538.

	<ul style="list-style-type: none"> • Requirements and procedures for Acquisition from Federal Prison Industries, Inc. are retained and streamlined. The content has been moved from subpart 8.6 to the new subpart 8.3. • Requirements and procedures for Acquisition from AbilityOne Participating Nonprofit Agencies are retained and streamlined. Removed	<ul style="list-style-type: none"> • Section 8.000, “General”, is removed. It contained a general requirement for IT acquisitions to comply with capital planning rules. This information is not specific to the core purpose of part 8. • Section 8.1, “Excess Personal Property” is removed. The new 8.103(a)(2) points readers to the authoritative Federal Management Regulation (41 C.F.R. 102-36) to avoid outdated information. • Section 8.4, “Federal Supply Schedules” is retitled to “Ordering under the Federal Supply Schedule”, and streamlined with the majority of the content moving to GSAM/R 538. • The following clauses associated with “Leasing of Motor Vehicles” are removed: <ul style="list-style-type: none"> ○ 52.208-4, Vehicle Lease Payments ○ 52.208-5, Condition of Leased Vehicles ○ 52.208-6, Marking of Leased Vehicles ○ 52.208-7, Tagging of Leased Vehicles

FCC Class Deviation RFO-2026-8

TO: FCC Enterprise Acquisition Center

FROM: Sunny Diemert, Senior Procurement Executive

DATE: May 8, 2026

SUBJECT: FAR Class Deviation for FAR Part 8 in Support of Executive Order 14275, Restoring Common Sense to Federal Procurement.

1. Purpose: This memorandum approves a class deviation to Federal Acquisition Regulation (FAR) part 8 for purposes of implementing the Federal Acquisition Regulatory Council's (the Council's) model deviation text to FAR part 8.

2. Background: Executive Order (E.O) 14275, Restoring Common Sense to Federal procurement, signed April 15, 2025, mandates a comprehensive review and simplification of the Federal Acquisition Regulation (FAR).

The FAR is being updated to:

- Eliminate non-statutory language
- Remove redundant or obsolete language
- Enhance clarity through plain language
- Align with the new FAR framework
- Preserve essential governmentwide acquisition standards

This project is referred to as the Revolutionary FAR Overhaul (RFO) initiative. This initiative will make the FAR more concise, understandable, and focused on core procurement requirements.

3. Summary of Changes. FAR Part 8, Required Sources of Supplies and Services, is significantly updated. The model deviation language:

- Enhances usability by restructuring and organizing the part in the logical flow of the acquisition lifecycle.
- Simplifies mandatory source guidance.
- Makes the use of Governmentwide Best-In-Class (BIC) contracts mandatory.
- Retains focus on the importance of the AbilityOne Program.

This revolutionary change also moves the procedures for ordering under the Federal Supply Schedule (FSS) from the FAR into the General Services Administration Acquisition Regulation (GSAR). The new language represents a significant shift from the overly prescriptive framework

RFO FAR part 8	
Background	<p>The FAR Council initially released the RFO FAR part 8 model deviation text on August 14, 2025 which required use of Office of Federal Property Policy best-in-class (BIC) contracts. On August 29, 2025 OFPP updated the model deviation text to reference “required use” contracts at 8.104 instead of BIC contracts.</p> <p>It is understood that OFPP will be establishing a new class of “required use” contracts (and associated criteria) that will be separate from BIC contracts. “Required use” contracts will be mandatory. BICs may be prioritized, but are not mandatory.</p> <p>FCC’s class deviation implementing RFO FAR 8 is amended as follows, to reflect the updated RFO FAR part 8 model deviation text:</p>
Supplement Update 1	<p>Section 3, “Summary of Changes”, is updated as follows:</p> <p>3. Summary of Changes. FAR part 8, Required Sources of Supplies and Services, is significantly updated. Supplement Update 2	<p>The fourth bullet in the “Retained” section of the table in Section 3, “Summary of Changes”, is updated as follows:</p> <ul style="list-style-type: none"> • Use of Existing Contracts. 8.104 replaces section 8.004, “Use of Other Sources”. Best-in-class (BIC) [OFPP-designed “Required Use”] contracts or BPAs are now required[mandatory] to be used when a commercial product or commercial service meets an agency’s need, unless approved by the Head of the Contracting Activity (HCA). If a BIC [“required use” contract] is not suitable, agencies should consider use of an existing governmentwide contract, BPA, or shared service.
Miscellaneous	<ul style="list-style-type: none"> • OFPP is expected to provide more information about “required use” contracts in the future.
